Let 's face the facts: when it comes to tablets, most people think about iPad; that 's a shame because while Apple may dominate the headlines, when it comes to number of tablets sold and technology innovation, Samsung frequently has them beat. If you are making the switch from iPad to Samsung or are upgrading from another Android or Samsung tablet, then this guide will walk you through the basics of the operating system. It 's going to cover only what most people want to know—so if you are looking for something highly technical that teaches you how to set up private virtual networks, then keep looking. But if you want something that teaches you all kinds of cool tricks and helps you get started, then this book is for you. You 'll learn about: Setting up your tablet Installing apps and widgets Connecting to Wi-Fi Changing themes and wallpaper Using Gestures Using the camera Surfing the Internet Changing system settings Using Samsung Kids mode And much more! Note: This book is not endorsed by Samsung and should be considered unofficial.
