internal speakers when attempting to view TV. I have a surround sound system connected with external speakers and it works fine. I have also run the audio test on the TV itself and the test performs fine.

Solved: No sound - Samsung Community - 157591

The cables connected to your Samsung TV might be the problem. A loose cable may diminish picture and sound quality and create the humming. Connecting a cable to the wrong port on the back of your TV also may result in audio and video problems. Check if the cables are connected securely into the appropriate jacks to avoid audio noise and distortion.

If problem is  
windows->Receiver->Samsung TV then  
its quite easy to fix. Download  
Custom Resolution Utility (CRU)  
1.4.1 and Monitor Assist from  
Entech. Connect pc directly to  
Samsung and extract EDID info with  
monitor assist, do same with AVR.  
Compare the two. Open Cru (run as  
admin).

**Solved: Sound pops while  
watching tv - Samsung Community**

I recently purchased a Samsung  
- 55" Class (54.6" Diag.) - LED  
- 2160p - Smart - 4K Ultra HD  
TV, and now that I have had it  
a few days, I am noticing that  
the sound pops every couple  
minutes or so. It makes no  
difference weather the volume  
is higher or lower it still  
pops, but the intensity of the  
pop does change with the  
volume.
