Radar Instruction Manual Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both

as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Martha Mier's Tennessee Treasures takes a musical journey to three different cities across the state of Tennessee. Written in three movements, it begins in Memphis. "Down on Beale Street" is a slow, bluesy piece that celebrates the musical heritage of one of the most famous streets in that city. Nashville, the home of country music, is highlighted in "Ballad for Nashville," a lyrical

country waltz. The final movement, "Sunrise in the Great Smoky Mountains," visits the eastern part of the state and the city of Knoxville. The broad grandeur of the mountains is evoked through big chords, arpeggios, and a sweeping melodic line, providing a fitting close to the suite.

The Jungle Effect has the life-changing answers to these important questions, and many more. Whether it's the heart-healthy Cretan diet, with its reliance on olive oil and fresh vegetables, the antidepressive Icelandic
