Design makes a tremendous impact on the produced world in terms of usability, resources, understanding, and priorities. What we produce, how we serve customers and other stakeholders, and even how we understand how the

world works is all affected by the design of models and solutions. Designers have an unprecedented opportunity to use their skills to make meaningful, sustainable change in the world—if they know how to focus their skills, time, and agendas. In Design is the Problem: The Future of Design Must be Sustainable, Nathan

Shedroff examines how the endemic culture of design often creates unsustainable solutions, and shows how designers can bake sustainability into their design processes in order to produce more sustainable solutions.

First in the New York Times – bestselling series: Two district attorneys go up against a brilliant killer in this “exceptionally good” legal thriller (Publishers Weekly). The plan was simple: When the manager carries the bags of money out of the supermarket, Mandeville Louis will be waiting with a shotgun. He ’ ll kill the manager, kill the guard, and cruise away. But when Louis ’ s driver shows up late, he ’ s forced to improvise—and the result is a disaster. He storms a liquor store, killing two and leaving a trail the cops have no trouble following. But even behind bars, Mandeville Louis won ’ t go down without a fight. An expert in legal procedure, Louis has never met a loophole too small to shimmy through. He ’ s going to bob and weave his way into a plea bargain and pack onto the streets—unless Butch Karp can stop him. A firebrand assistant district attorney who ’ s just been assigned to Homicide, he wants to make an example of Louis. With the help of the brilliant Marlene Ciampi, Karp intends to break Mandeville Louis—and strike a blow for justice.
