and aspirational. " Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with

Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he ' s as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn ' t have to share. The last cookie all to himself.

And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He ' s finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she ' ll be gone in a few months... Except now she ' s determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs?

"This friendly book leads us clearly and gracefully from the basics to advanced techniques in photography composition . . . highly recommended."

—Brian Taylor, executive director, Center for Photographic Arts

There ' s a common misconception that composition is mysterious and that only certain people have that natural gift for the techniques involved. The truth is that composition involves a set of skills that you can master. Just as you can use cookbook recipes to make your favorite meal—you don ' t have

This handbook provides a framework for understanding

how to characterize plastic manufacturing processes for use in troubleshooting problems. The 21 chapters are authored by well-known and experienced engineers who have specialized knowledge about the processes covered in this practical guide. From the Preface: “In every chapter, the process is described and the most common problems are discussed along with the root

causes and potential technical solutions. Numerous case studies are provided that illustrate the troubleshooting process. Mark A. Spalding, The Dow Chemical Company

Since publication this title has proved to be very popular for both the serious lens

user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This

section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

The book is about a global mission against world cataract blindness. It highlights the resistance of some world organizations to changes, particularly the shift from ICCE to ECCE with PCI, and how they have relented over the years. It also highlights the success of cataract/implant training centres in

China, especially in Tianjin. The book will be of interest to anyone involved in providing eye care, and may be of special interest to those dealing with blinding diseases including cataract.

Worn worldwide, it is cherished both for the clothing made from it and as a fascinating traditional craft. Lara Platman spent a year with the farmers, mill workers, weavers, tailors and designers who are carrying this tradition forward into the twenty-first century and in Harris Tweed: From Land to

Street she follows the chain of craftsmen, from the islanders in the Hebrides to the tailors of Savile Row. With an eye for character, colour and light, and an ear for a good story, Lara has created extraordinary portraits of these living national treasures, complemented by evocative images of the landscapes of Harris, the tweed patterns whose textures and colours seem to emerge from the land, and the use of Harris tweed in the work of fashion designers including Vivienne Westwood, Margaret Howell and Paul Smith. Offering

insights into a lifestyle whose continued existence may surprise many, this group portrait is a heartfelt celebration of craftsmanship and a way of life.

Larry Towell first encountered the Mennonites near his home in Ontario, Canada, and his friendship with them gained him unique access to their communities. Rather than compromise their way of life, Mennonites have continually been forced to migrate around the world to maintain their freedom to live as they choose. Towell photographed Mennonites in Canada and Mexico for over ten years, and his own texts tell in detail his experiences with their communities: the harshness and poverty of their rural

existence, the disciplines and contradictions of their religion, their hunger for land and work, and the constant struggle to keep the modern world at bay. This second edition, re-edited and re-sequenced includes forty new images from the photographer's archive.

Scandinavia's most famous painter, the Norwegian Edvard Munch (1863-1944), is probably best known for his painting The Scream, a universally recognized icon of

terror and despair. (A version was stolen from the Munch Museum in Oslo, Norway, in August 2004, and has not yet been recovered.) But Munch considered himself a writer as well as a painter. Munch began painting as a teenager and, in his young adulthood, studied and worked in Paris and Berlin, where he evolved a highly personal style in paintings and works on paper. And in diaries that he kept for decades, he also experimented with reminiscence, fiction, prose	portraits, philosophical speculations, and surrealism. Known as an artist who captured both the ecstasies and the hellish depths of the human condition, Munch conveys these emotions in his diaries but also reveals other facets of his personality in remarks and stories that are alternately droll, compassionate, romantic, and cerebral. This English translation of Edvard Munch's private diaries, the most extensive edition to appear in any language, captures the	eloquent lyricism of the original Norwegian text. The journal entries in this volume span the period from the 1880s, when Munch was in his twenties, until the 1930s, reflecting the changes in his life and his work. The book is illustrated with fifteen of Munch's drawings, many of them rarely seen before. While these diaries have been excerpted before, no translation has captured the real passion and poetry of Munch's voice. This is a translation that lets Munch speak for himself and evokes

the primal passion of his diaries. J. Gill Holland's exceptional work adds a whole new level to our understanding of the artist and the depth of his scream. Wild Child (a Soul Sister Novel) Hachette UK The newest sizzling romance from Audrey Carlan, the #1 New York Times bestselling author of the Calendar Girl series. Twice my life changed in a single day. The first was when I lost my parents. Hand in hand I walked with my big sister up the steps of Kerrighan House, a foster

home for girls. We were lucky to be met with open arms and a house filled with children just like us. Children who'd lost everything. From that day forward, we were raised as one big family. Our bonds of sisterhood were strengthened through shared experience, pain, sacrifice, and love. Sisters not by blood, but by choice. Soul sisters. The second day my life changed was on the worst day of my adult life. My boyfriend broke up with me via text. My sleazy boss hit on me, forcing me to quit a job I desperately needed. And the cherry on top, was getting pulled over by an

FBI Agent. Little did I know, he'd also save my life that night. From the moment we met, Agent Fontaine wouldn't dare let me out of his sight. And between his alpha ways, kind brown eyes, and heroism, I was lost to the man who hid behind his job. But this agent had a rule: never fall for a woman you've saved. Yet I wasn't just any woman. I was known among my sisters for taking risks and dreaming big. I was the wild child of the group. We were raised to appreciate every day as the gift it was, and not let anything stand in our way. The more I got to know the brooding,

serious FBI man, the more I realized maybe it was my duty to save him. Phantom Masquerade Kensington Publishing Corp. Harris Tweed Routledge First published a half-century ago, Rachel Carson's award-winning *The Sense of Wonder* remains the classic guide to introducing children to the marvels of nature In 1955, acclaimed conservationist Rachel Carson—author of *Silent Spring*—began work on an essay that she would come to consider one of her

life's most important projects. Her grandnephew, Roger Christie, had visited Carson that summer at her cottage in Maine, and together they had wandered the surrounding woods and tide pools. Teaching Roger about the natural wonders around them, Carson began to see them anew herself, and wanted to relate that same magical feeling to others who might hope to introduce a child to the beauty of nature. "If a child is to keep alive his inborn sense of wonder," writes Carson, "he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world

we live in. ” Now available in paperback, *The Sense of Wonder* is a timeless volume that will be passed on from generation to generation, as treasured as the memory of an early-morning walk when the song of a whippoorwill was heard as if for the first time. Featuring serene color photographs from renowned photographer Nick Kelsh, “ this beautifully illustrated edition makes a fine gift for new and prospective mothers and fathers ” (Gregory McNamee), and helps us all to tap into the extraordinary power of the natural world.
