A web application involves many specialists, but it takes people in web ops to ensure that everything works together throughout an application's lifetime. It's the expertise you need when your start-up gets an unexpected spike in web traffic, or when a new feature causes your mature application to fail. In this

collection of essays and interviews, web veterans such as Theo Schlossnagle, Baron Schwartz, and Alistair Croll offer insights into this evolving field. You'll learn stories from the trenches--from builders of some of the biggest sites on the Web--on what's necessary to help a site thrive. Learn the skills needed in web operations, and why they're gained through experience rather than schooling. Understand why it's important to gather metrics from both your application and infrastructure. Consider common approaches to database architectures and the pitfalls that come with increasing scale. Learn how to handle the human side of outages and degradations. Find out how one company avoided disaster after a huge traffic deluge. Discover what went wrong after a problem occurs, and how to prevent it from happening again.

Follow in the footsteps of Leica Camera  
Ambassador Craig Semetko's 10 year trek  
across the globe to capture the spontaneity,  
humor, and juxtaposition of the human  
experience. In the book's forward, iconic  
photographer Elliott Erwin writes, "Good  
photographs are tough enough to shoot.  
Really funny ones are even harder. Good  
and funny photographs observed in nature

not arranged or manipulated but simply  
observed in real time with amazing  
consistency, constitute a minor miracle now  
presented in Mr. Semetko's book...In my  
book, he is the essential photographer. That  
is, the one who sees what others could not  
have seen." Inspired by Cartier-Bresson,  
Robert Frank, and Elliott Erwitt, Craig  
Semetko is a collector of the spontaneous  
moment. With an uncanny knack for using  
Leica Cameras to capture the beautiful and  
unexpected that surrounds us all, Semetko  
offers a striking collection of imagery shot  
during 10 years of traveling around the  
world, from Edinburgh to Amsterdam,  
France to Los Angeles, Hanoi to Bangkok,  
and beyond. This visual celebration records  
the first decade of the twenty-first century

---

across all walks of life. Semetko documents the muted beauty of regular people simply living their lives, and captures the humor found in the offbeat and eccentric contrasts all around us. Unposed is a memorable exploration of an era shot by a skilled photographer, dubbed by Esquire magazine as “a noble torchbearer” of the Leica Camera legacy.

---

Rachel Carson—author of *Silent Spring*—began work on an essay that she would come to consider one of her life’s most important projects. Her grandnephew, Roger Christie, had visited Carson that summer at her cottage in Maine, and together they had wandered the surrounding woods and tide pools. Teaching Roger about the natural wonders around them, Carson began to see them anew herself, and wanted to relate that same magical feeling to others who might hope to introduce a child to the beauty of nature. “If a child is to keep alive his inborn sense of wonder,” writes Carson, “he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world we live in.” Now available in

paperback, *The Sense of Wonder* is a timeless volume that will be passed on from generation to generation, as treasured as the memory of an early-morning walk when the song of a whippoorwill was heard as if for the first time. Featuring serene color photographs from renowned photographer Nick Kelsh, “this beautifully illustrated edition makes a fine gift for new and prospective mothers and fathers” (Gregory McNamee), and helps us all to tap into the extraordinary power of the natural world. **Ansel Adams** "O'Reilly Media, Inc." If you've got a love and passion for photography, and a feel for your camera gear and settings, yet your images still fall

short—The Passionate Photographer will help you close that disappointing and frustrating gap between the images you thought you took and the images you actually got. This book will help you determine what you want to say with your photography, then translate those thoughts and feelings into strong images. It is both a source of inspiration and a practical guide, as photographer Steve Simon distills 30 years of photographic obsession into the ten crucial steps every photographer needs to take in order to become great at their passion.

Simon's practical tips and advice are immediately actionable—designed to accelerate your progress toward becoming the photographer you know you can be. Core concepts include: - The power of working on personal projects to fuel your passion and vision - Shooting a large and targeted volume of work, which leads to a technical competence that lets your creativity soar - Learning to focus

---

your concentration as you shoot, and move outside your comfort zone, past your fears toward the next great image - Strategies for approaching strangers to create successful portraits - How to edit your own work and seek second opinions to identify strengths and weaknesses, offering opportunities for growth and improvement with a goal of sharing your work with the world - The critical need to follow, see, and capture the light around you Along the way, Simon offers inspiration with “Lessons Learned” culled from his own extensive experience and archive of photojournalism and personal projects, as well as images and stories from acclaimed photographers. If you’re ready to be inspired and challenge yourself to take your photography to the next level, *The Passionate Photographer* provides ideas and creative solutions to transform that passion into images that convey your unique personal vision.
