This reader makes the key essays of 19th century French philosopher Félix Ravaisson available in English for the first time. In recent years, Ravaisson has emerged as an extremely important and influential figure in the history of modern European philosophy. The volume contains the classic 1838 dissertation Of Habit, studies of Pascal, Stoicism and the wider history of philosophy together with the Philosophical Testament that he left unfinished when he died in 1900. The volume also features Ravaisson's work in archaeology, the history of religions and art-theory, and his essay on the Venus de Milo, which occupied him over a period of twenty years after he noticed, when hiding the statue behind a false wall in a dingy Parisian basement during the Franco-Prussian war, that it had previously been presented in a way that deformed its original bearing and meaning. Félix Ravaisson: Selected Essays contains an introductory intellectual biography of Ravaisson, which contextualises each of the essays in the volume. It also features an annotated bibliography of suggested further reading. This book will grant scholars and students alike wider access to his distinctive contribution to the history of philosophy.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. The Only Question Is Will Their Love Survive? When Sara and Jacob find out they're pregnant with a baby boy, nothing could make them happier. They were your typical expecting parents - deeply in love, deliriously excited to be starting a family. However, their hopes are dashed when the doctor gives a recommendation for Sara to take an AFT. Five words change their destiny forever... "Your son has Trisomy 21" Their perfect love story unexpectedly spirals into panic, and their dream shatters with it - devastating Sara. Jacob, confused and troubled with the situation, tries to prompt Sara into following the doctor's suggestion: terminate the pregnancy; assuring her that they can try again. Sara angry at even the thought of destroying the life inside of her, rejects him. Their love, marriage and future suddenly start to fall apart; sending them both on very different journeys… Chapter 1 - Bacon Sara stared out the window in awe. The branches of the trees in the backyard swayed back and forth in the light breeze, the sun's rays piercing through the leaves causing shadows to dance across the wilted grass. Sara practically floated around the kitchen in her excitement which filled the room along with the smell of the sizzling bacon she was cooking. After years of being married, Sara knew exactly how to rouse her husband from sleep, and she knew that the aroma would eventually coax him out of bed. Elated, she let out a girlish laugh. Today is going to be perfect, she thought. Sizzling and crackling sounds from the frying bacon echoed from the kitchen. She was certain that last pop would have woke him up but she didn't care because she was having too much fun. She let her hand rest on her pregnant belly, patting it affectionately. "I hope you like it out here," she murmured to herself and as if on cue, she felt a tiny flutter in her stomach. Being pregnant was unlike any other chapter of her life, she had never felt more purposeful. She felt like a mess of contradictions. Completely afraid and simultaneously stronger than ever. Powerful, yet unattractive but her mother-in-law had assured her that it was all just the hormones. It didn't stop her from feeling like a thanksgiving turkey, although she did appreciate everyone's attempt at making her feel better. It wasn't long before Jacob's head peeked around the corner, sleepy eyed and resembling more of a toddler than a grown man. His golden hair was creased in the middle, pointing up on one side and flattened on the other. He flashed a smile at her, "What's all this?" She chuckled, "You have some serious bed head Mr. Michaels." Without a word he came up behind her, wrapping his arms around her waist and placing his hands on her stomach. "Should you really be standing up for such a long time, Mrs. Michaels?" "I'm fine Jacob," she replied. "Besides the doctor said walking is healthy for me and the baby, so standing shouldn't hurt." She laughed patting his cheek playfully. He left a butterfly kiss where her fingers brushed against his lips. "Well, if physical activity is helpful…" Her grin gave way to a full smile as she reached back to swat him. After a short pause he continued, "Seriously, do you know what would make this day better?" She raised her eyebrow, expecting him to say something suggestive (which was typical of him). He spun her around in his arms so that she was facing him, her belly protruded slightly between them making him hold her awkwardly but he went on pretending she didn't notice. "I was just going to say, what would make this day better…" he trailed off looking deeply into her eyes. "is finding out we're having a boy today." She let out a bark of laughter "Really, that's not where I thought you were going with that."

In this meticulously researched, unflinching, and reasoned study, National Book Award finalist David I. Kertzer presents shocking revelations about the role played by the Vatican in the development of modern anti-Semitism. Working in long-sealed Vatican archives, Kertzer unearths startling evidence to undermine the Church's argument that it played no direct role in the spread of modern anti-Semitism. In doing so, he challenges the Vatican's recent official statement on the subject, We Remember. Kertzer tells an unsettling story that has stirred up controversy around the world and sheds a much-needed light on the past.

"The finest, most moving and powerful memoir I have ever read."—MAYIM BIALIK Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanlysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But Kasher in the Rye is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Odd Magne Bakke presents the first in-depth study of 1 Clement from the standpoint of the letter's rhetoric. He bases his methodological analysis on tools from the Graeco-Roman rhetorical tradition, using both the handbooks as well as actual speeches and letters. These are supplemented by tools from modern text linguistics, which the author uses to do a compositional analysis of the letter, and by the tools of modern semantics, used to establish the language of concord in 1 Clement which it has in common with other relevant ancient literature. The author's approach constitutes a fresh reading of 1 Clement and provides new suggestions on several important issues in the immense research on the letter. He demonstrates both the thematic and argumentative unity of the letter. Its macro-structure reflects the conventional parts of the dispositio of ancient rhetoric (exordium, narratio, probatio, peroratio). Also, the sub-texts on different levels of these parts are shown to be integrated into and to serve Clement's overall argument for re-establishing concord and peace in the Corinthian church. Odd Magne Bakke questions the traditional views that the conflict in this church was between 'spirit' and 'office' or was a matter of 'doctrine'. He argues that Clement primarily regarded it as a conflict between people of different socio-economic statuses in which a struggle for honor appeared to be an important aspect.
