Today, the entire success of a school seems to be the responsibility of the principal and the teachers. The thesis of this book is that principals and teachers can only take a school so far because of other factors that also impact on the success or failure of a school: (1) Federal, state, local and district regulations and policies; (2) the physical plant and location of the school; (3) parents; (4) students; (5) the non-teaching staff. The book explores all these, but also has an underlying theme: Money It is a cliché that if a school has more money, it will have better results. Monies allocated to education do have an impact, but poverty level and income inequality have an equal if not greater impact on school success on the national, state and local levels. Principals and teachers have absolutely no control on poverty and income inequality which negatively impact schools regardless of how dedicated and hard-working the

pedagogical staff. After exploring the other factors impacting on school success, the book will look at teachers and principals, not from the viewpoint of what they can do, but the viewpoint of their limitations. Much of this is economic, leading to high staff turnover and therefore a lack of continuity in a school.

Winter is hard in Beauville, where the melting snow can reveal much more than last season's dead leaves. So when a wealthy, obnoxious tourist and his ski bunny girlfriend surface in Pru Marlowe's little Berkshire town, she knows she should stay out of their way. The bad-girl animal psychic has to focus on more immediate concerns, including a wild rabbit named Henry, supposedly tamed and illegally living with an eighty-four-year-old lady in her home. Henry, who seems to be acting out and hiding, avoids responding to Pru. Yet when Pru discovers the tourist murdered and his girlfriend's high-maintenance spaniel falls to her care, she gets dragged into a complicated case of crime and punishment that involves some new friends, an old nemesis, and her own shadowed past. A recent museum art heist draws the feds into the investigation along with a courtly gentleman radiating menace, who represents secretive business interests in New York and shows a surprising awareness of Pru. Her on-again, off-again romance with police Detective Creighton doesn't stop him from warning her to steer clear of the inquiry. The spaniel, however, lures her in. Pru lives in a world where only her crotchety tabby Wallis knows the whole truth about her past, her flight from Manhattan, and her unique gift that surfaced abruptly one day. Fearing the worst, Pru now comes dangerously close to being exposed. With everything in motion, Pru, Wallis, and everyone they hold dear will be lucky to escape...by a hare.
