The purpose of this guide is to provide an overview of the usage and capabilities of WTI's (Western Transportation Institute) video surveillance trailers. This manual summarizes the relevant functions of the system as a whole, and of each of the components individually. This manual does not serve to replace or supersede vendor documentation for any of the trailer components. Hopefully, this document will provide an overview adequate to set up, use, and disassemble the trailers for whatever research data collection activities may be required.

For any new entrepreneur setting out on starting his/her own business, the very thought of setting up an enterprise may seem like a mammoth task. However, as author Sivakumar shows through his own experience, business is dependent only on one's attitude and ethics, and not knowledge or experience. Along with his two partners, he began his business out of a garage, and grew it over three decades to make it a globally recognized firm that worked with partners across different countries and captured a huge part of the domestic market. The lessons to be learnt are aplenty, and the author weaves them in through an anecdotal recounting of his partners' and his experiences, as he takes us through a journey like none other.
