100 Things You Should Know about Financial Accounting with SAP SAP PRESS

This book provides comprehensive, step-by-step configuration information for using Document Splitting and Balanced Segment Reporting in the SAP General Ledger. It provides implementation team members, functional finance professionals, and line-of-business managers with the implementation strategies, configuration steps, and best practices necessary to implement Document Splitting in the SAP General Ledger. Specific sections of the book focus on defining segments for use with common lines of business, configuration steps for Document Splitting, configuration of Segment Reporting, and managing a migration from the Classic General Ledger to the SAP General Ledger when Document Splitting is involved. Readers learn how to configure Document Splitting for the SAP General Ledger, including Standard and Extended Document Splitting and will quickly come to understand the common Business Transactions and how they relate to Segment Reporting and Document Splitting, including Vendor Invoice, Vendor Payment, and other financial transactions. Plus, find out how the new Segment object works in the SAP General Ledger, including how Segments are derived from Profit Centers. The author explains how best to use Profitability Reporting, Segment Reporting, and built-in tools like Report Writer and Report Painter in the SAP General Ledger and shows you how you can develop and execute a plan for migrating successfully to the SAP General Ledger using the SAP Migration Service.

SAP S/4HANA Delta for CO Configuration SAP PRESS

This updated 2nd edition offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Review the differences between ECC and SAP S/4HANA and user interface changes with Fiori. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. Gain in-depth knowledge of the concepts, objects, and functionality

available in PCA in SAP ERP, including the relevant master data set-up, actual data flows, planning scenarios, and reporting options. Clarify the differences between PCA and Margin Analysis and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. Learn more about the new APP Manage Profit Center Group. Explore planning options in SAP S/4HANA, including ACDOCP universal planning table. Take a closer look at on-premise reporting options for profit centers in SAP S/4HANA, including APPS and CDS views available in the Query browser. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. -

SAP Fi/Co Step by Step Configuration with Video Tutorial SAP PRESS

This a Practical how to do book which guides you to become expert in End User, Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules helps amplify functionality and features through application of customizing the system to meet accounting, financial, planning, and reporting needs in an organization. This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots. Once the steps in implementation is finished it is necessary to ensure that all the activities are performed in accordance. As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process. The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils, along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives. Finally, a set of step by step functions performed by End User exercise are provided for practice. The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional. Without having a clear idea of Settings in FICO other Modules Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step. What you will learn? 1. The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics. 2. Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language. 3. Provides you with a virtual firm's SAP R/3 FICO Step by Step Full Implementation Guide. 4. Most of the Materials do not help you in implementation in a sequential method. This book carries you with a sequential step such as in a particular order. 5. The Book also helps you to practice exercise at end of almost every sessions. 6. Most of the tutorials that exist in online do not explain the concepts. 7. It guides you with End User Training in

FICO. POST IMPLEMENTATION SAMPLE Control Objective Company codes employed in the system should be set to productive Control Description In case of post go-live actions, there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system. In a normal SAP recommends, the functioning company codes should be marked as productive, as soon as the implementation happens. This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes, comprising data deletion in the production server. Risk Here the risk is mistaken deletion of master & transactional data, which will unfavorably influence the system reliability. Test Steps Here we check the global company code configuration to confirm if the appropriate company codes are marked as Productive. For This Follow Step 15.1.1. We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15.1.2.

First Steps in SAP FI Configuration Apress The purpose of an interview is to assess the level of knowledge of a candidate on a subject matter and evaluate the extent to which one can contribute towards a company's development.
