The BAPI interfaces WebSphere Adapter for SAP Software supports outbound processing and inbound processing for simple BAPIs. In outbound processing, the client applications call BAPIs and other RFC-enabled functions on the SAP server. In inbound processing, the SAP server sends an RFC-enabled function (such as a BAPI function) through the adapter to an endpoint.

The classic way for communication between non-SAP systems and SAP is, according to SAP itself, the RFC interface. RFC interfaces are also often used to communicate between SAP systems itself. Put simply, RFC is a remote function call. The RFC interfaces for integration have been available since SAP/R3 until today.

Project manager, Pharmaceutical company, 2020 – 2,500 interfaces " We started to use UDO in order to prepare our migration between 2 SAP PI/PO version. Utilization of UDO to manage documentation helped us to reduce our documentation effort by a factor 10, and our cost by a factor 15 compare to fully human managed documentation.

---

This helped us to hugely accelerate the project by reducing ...

#### Interface Documentation in SAP Solution Manager 7

Is There any web tool to expose the documentation of SAP PI interfaces? Some kind of catalog. The goal is to allow other company teams to consult the available webservices, and the functional and field description of the interfaces.

#### Interface Documentation for Solution Manager 7.2 ... - SAP

Interface Documentation in SAP Solution Manager 7.2 as part of Solution Documentation provides the possibility to centrally document interfaces in the solution landscape. Basically, all interface technologies which exist in an SAP landscape are available, including SAP PI interfaces where the processing is done through different kinds of adapters.

#### WHINT Interface Documentation (SAP PI/PO) – integration ...

Today I want to present the possibility to get the interface and the documentation of a function module (FM). My example uses CCo, the COM Connector for the RFC library, but you can use also other ways to call a RFC function module (FM). I use the RFC FMs RFC\_GET\_FUNCTION\_INTERFACE and RFC\_FUNCTION\_DOCU\_GET. The first example in Visual Basic Script uses only RFC\_GET\_FUNCTION\_INTERFACE.
