In SAP NetWeaver, like in any system, there

are steps to follow for installation and

configuration. To make it easier, SAP

NetWeaver portal, has divided these steps

into 3 main sections: Preparation prior

installation, installation and post-installation.

These sections mentioned above apply to any version that is about to be installed.

**Getting started with Netweaver 7.3**

**portal Part 1 ... - SAP**

Preparations for Installation of SAP. 1.

Check that the operating system users

and groups are created. 2. Setup file

systems and make sure that the required

disk space is available for directories

created during installation. 3. If required,

setup virtual hostnames. 4. Install the front

end software (SAPGUI) 5.
