Maximizing Cash Management with SAP ERP Financials World Bank Publications

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case

study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, value, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read. SAP Expert Series SAP Press

This book provides Finance professionals, Treasurers, and CFOs with a roadmap for making their SAP processes compliant with SOX requirements. Combining comprehensive coverage of the major applications (Electronic Banking, Positive Pay, Cash & Liquidity Management, In-House Cash) with discussion of relevant control structures, processes, and compliance matrices for each, this book lends guidance to those tasked with integrating SOX compliance into established or proposed SAP implementations. The authors focus first on processes (e.g., intercompany processing), then expand to specific applications (e.g., In-House Cash), followed by a summary of the associated controls (e.g., domestic vs. foreign processing). Functional-level finance professionals involved in the daily management of a Treasury implementation, particularly, will find many proven processes with which to build or enhance effective compliance strategies.

A "How To" Guide SAP Press

This guide expertly introduces business users, SAP support staff, and SAP consultants to Bank Communication Management (BCM) in SAP S/4HANA and SAP ECC. Dive deep into BCM functionality and walk through end-to-end processes using BCM. Take a closer look at executing payment runs, batching payments, and approving and rejecting payments. Explore the technical aspects of using BCM, including alert implementation, automated payment reversals in the case of a rejected payment or batch, and the use of the BCM Connector to import and process a payment file generated from an external system. Understand how BCM is integrated with other payment-related modules in SAP. Look at configuration requirements and explore the available monitoring tools. Troubleshoot common implementation challenges and learn how to resolve them. Obtain an overview of SAP Multi-Bank Connectivity and

how to use it to connect with banking partners, and learn about Advanced Payment Management. This book uses practical examples, tips, and screenshots to guide readers through BCM functionality and processes.

- Explore BCM functionality in SAP S/4HANA and ECC, including process flows, reporting, and configuration
- Dive into the technical aspects of using BCM
- Learn about SAP Advanced Payment Management and SAP Multi-Bank Connectivity
- Troubleshoot common implementation challenges
