Referring to SAS and its products or services.
Always write the name "SAS" in uppercase letters
with no periods. Here is the official description of
SAS Institute: SAS is the world's largest privately
held software company. Note: The phrase
"privately held" (as opposed to "public") means
the company is privately owned and does not sell
stock.

SAS Documentation A-Z Listing By Title, Online Documentation

The RANUNI function returns a number that is generated from the uniform distribution on the interval (0,1) using a prime modulus multiplicative generator with modulus 2³¹ – and multiplier 397204094 (Fishman and Moore 1982) (See References in SAS Viya Functions and CALL Routines: Reference). SAS Documentation 9.3 and Earlier | SAS Support Output 91.3.1 and Output 91.3.2 display the PROC PRINCOMP output, beginning with simple statistics and then the correlation matrix. By default, PROC PRINCOMP computes principal components from the correlation matrix, so the total variance is equal to the number of variables, 13.

Sas Documentation 91 3

The SAS log displays information about the successful import. For this example, the

IMPORT procedure generates a SAS DATA step, as shown in the log that follows. The log is divided into sections only for documentation appearances.

SAS 9.1.3 Documentation

The "Computed Power" table in Output 91.3.1 shows that the power with 100 patients is about 0.8 for the two-sided test and 0.87 for the one-sided test with the alternative of larger Brantium mean. In Output 91.3.2, the line style identifies the number of sides of the test. The plotting symbols identify locations of actual computed powers; the curves are linear interpolations of these points.
