The author buys a long-dead vintage BMW sight-unseen,

travels a thousand miles to where it sits, gets it running, and drives it home. During the twelve-day trip, he finds that what began as a story of man-versus-machine turns into something else entirely--a story of the kindness of strangers, and how doors sometimes open exactly when you need them to. "Rob Siegel is a writer with the mind of a mechanic and a mechanic with the mind of a writer. He's also an old-school romantic of the best kind, and one of the few people who understands what car culture really means to the

people invested in it-free of stereotype, cliché, or pat sentiments you've read a thousand times before. Like all of his writing, *Ran When Parked* focuses heavily on the why behind the hobby. It's a mix of casual, long-form blog entry; detailed how-to; and emotive confessional; most of all, he seems to believe the world would be a better place if everyone else followed on his crazy path and devoted their free time to resurrecting old iron. He's right." -Sam Smith Editor at Large, *Road & Track*
