**Dare We Hope**  
Encounter Books  
This book is a  
learned essay at the

intersection of politics, impulse to regard philosophy, and modern man as the religion. It is first and foremost a diagnosis and critique of the secular religion of our time, humanitarianism, or the “religion of humanity.” It argues that the humanitarian intersection of politics, impulse to regard modern man as the measure of all things has begun to corrupt Christianity itself, reducing it to an inordinate concern for “social justice,” radical political change, and an increasingly fanatical

---

egalitarianism. Christianity thus loses its transcendental reference points at the same time that it undermines balanced political judgment. Humanitarians, secular or religious, confuse peace with pacifism, equitable social arrangements with socialism, and moral judgment with utopianism and sentimentality. With a foreword by the distinguished political philosopher Pierre Manent, Mahoney's book follows Pope Emeritus Benedict XVI in affirming that Christianity is in no way reducible to a "humanitarian moral message." In a pungent if respectful analysis, it demonstrates that Pope Francis has increasingly confused the Gospel with left-

wing humanitarianism and egalitarianism that owes little to classical or Christian wisdom. It takes its bearings from a series of thinkers (Orestes Brownson, Aurel Kolnai, Vladimir Soloviev, and Aleksandr Solzhenitsyn) who have been instructive critics of the "religion of humanity." These thinkers were men of peace who rejected ideological pacifism and never confused Christianity with unthinking sentimentality. The book ends by affirming the power of reason, informed by revealed faith, to provide a humanizing alternative to utopian illusions and nihilistic despair. Spe salvi (saved in hope) Ignatius Press

This collection of texts by Benedict XVI, composed both before and after his election to the pontificate, is a testimony to his close relationship with John Paul II, born over a quarter of a century of close collaboration by two of the most important religious figures of the new millennium. The twelve featured selections include Ratzinger's tribute to John Paul II on the occasion of the twentieth anniversary of his pontificate, as well as the moving homily delivered by Cardinal Joseph Ratzinger at the funeral Mass of "our late beloved Pope John Paul II." Pope Benedict XVI elaborated the significance of Christian hope in eternal life for contemporary Catholics by expertly interpreting examples of hope from the New Testament and saints of the Church.

The Idol of Our Age Saved in Hope  
Jesus Our Redeemer examines what it means when Christians call Jesus their 'Redeemer' or 'Saviour'. It tackles such questions as: How can redemptive events in the past (Christ's life, death, and resurrection) bring about saving effects in the present? Why do human beings need redemption, both individually and collectively? What images of God are implied by the saving action of God and by human

needs? Gerald O'Collins SJ draws on the scriptures, Christian hymns and texts for worship, literature, the visual arts, and other sources. He examines four major models of how redemption through Christ has been thought to work: theories of deliverance, penal substitution, sacrifice, and transforming love. He concludes by considering the outworking of salvation in the life of the Church, the situation of non-Christians, and the final consummation of human life and the created world at the end of time. Will Many Be

Saved? Ignatius Press of each person, and In this book of meditations, based on a series of meditations by the author shortly before he became Archbishop of Munich-Freising, in 1977, theologian Joseph Ratzinger (Pope Benedict XVI) presents his profound thoughts on the nature and person of God, building a bridge between theology and spirituality as he makes wide use of the Sacred Scriptures to reveal the beauty and mystery of who God is. He writes about each of the three persons in the Holy Trinity, showing the different attributes

that "God is three and God is one." God is - and the Christian faith adds: God is as Father, Son, and Holy Spirit, three and one. This is the very heart of Christianity, but it is so often shrouded in a silence born of perplexity. Has the Church perhaps gone one step too far here? Ought we not rather leave something so great and inaccessible as God in his inaccessibility? Can something like the Trinity have any real meaning for us? It is certainly true that the proposition that "God is three and God is one" is and remains the

---

expression of his otherness, which is infinitely greater than us and transcends all our thinking and our existence. But, as Joseph Ratzinger shows, if this proposition meant nothing to us, it would not have been revealed! And it could be clothed in human language only because it had already penetrated human thinking and living to some extent. "Without Jesus, we do not know what 'Father' truly is. This becomes visible in his prayer, which is the foundation of his being. A Jesus who was not continuously absorbed in the

Father, and was not in continuous intimate communication with him, would be a completely different being from the Jesus of the Bible, the real Jesus of history... In Jesus' prayer, the Father becomes visible and Jesus makes himself known as the Son. The unity which this reveals is the Trinity. Accordingly, becoming a Christian means sharing in Jesus' prayer, entering into the model provided by his life, i.e. the model of prayer. Becoming a Christian means saying 'Father' with Jesus. " — Joseph Ratzinger (Pope

Benedict XVI)  
The Life of Blessed Margaret of Castello  
Ignatius Press  
Increasingly, the future is becoming a theme for theological reflection. In the background we can detect a growing concern among many people for the future of faith. Does faith have any future at all, and, if so, where in all the confusion of today's trends will we discover its embryo? But the problem of the future assails not only the believer. In the ever more rapidly advancing process of historical evolution, man is confronted with enormous opportunities, but also with colossal perils. For him, the future is not only hope, but sorrow-a nightmare, indeed.

---

He cannot avoid asking what part faith can play in building tomorrow's world. Joseph Ratzinger, now Pope Benedict XVI, approaches this problem of universal concern from a variety of angles, bringing his deep personal faith and theological brilliance to bear on these serious questions.

The Meaning of Christian Brotherhood Ignatius Press

A rich harvest of scripture and tradition about the Mother of God Testimony of Hope Opus Dei

Information Office A Columbia University physician comes across a popular medieval text on dying well written after the horror of the Black Plague and discovers ancient wisdom for rethinking death and gaining insight today on how we can learn the lost art of dying well in this wise, clear-eyed book that is as compelling and soulful as *Being Mortal*, *When Breath Becomes Air*, and *Smoke Gets in Your Eyes*. As a specialist in both medical ethics and the

treatment of older patients, Dr. L. S. Dugdale knows a great deal about the end of life. Far too many of us die poorly, she argues. Our culture has overly medicalized death: dying is often institutional and sterile, prolonged by unnecessary resuscitations and other intrusive interventions. We are not going gently into that good night—our reliance on modern medicine can actually prolong suffering and strip us of our dignity. Yet our lives do not have to end this way.

---

Centuries ago, in the wake of the Black Plague, a text was published offering advice to help the living prepare for a good death. Written during the late Middle Ages, *ars moriendi*—The Art of Dying—made clear that to die well, one first had to live well and described what practices best help us prepare. When Dugdale discovered this Medieval book, it was a revelation. Inspired by its holistic approach to the final stage we must all one day face, she draws

from this forgotten work, combining its wisdom with the knowledge she has gleaned from her long medical career. The *Lost Art of Dying* is a twenty-first century *ars moriendi*, filled with much-needed insight and thoughtful guidance that will change our perceptions. By recovering our sense of finitude, confronting our fears, accepting how our bodies age, developing meaningful rituals, and involving our communities in end-of-life care, we can discover what

it means to both live and die well. And like the original *ars moriendi*, The *Lost Art of Dying* includes nine black-and-white drawings from artist Michael W. Dugger. Dr. Dugdale offers a hopeful perspective on death and dying as she shows us how to adapt the wisdom from the past to our lives today. The *Lost Art of Dying* is a vital, affecting book that reconsiders death, death culture, and how we can transform how we live each day, including our last.

On Christian Hope Paulist Press Originally published in English in 1988, Joseph Ratzinger's Eschatology remains internationally recognized as a leading text on the "last

things"—heaven and hell, purgatory and judgment, death and the immortality of the soul. This highly anticipated second edition includes a new preface by Joseph Ratzinger/Pope Benedict XVI and a supplement to the bibliography by theologian Peter A. Casarella. Eschatology presents a balanced perspective of the doctrine at the center of Christian belief—the Church's faith in eternal life. Recognizing the task of contemporary

eschatology as "to marry perspectives, so that person and community, present and future, are seen in their unity," Joseph Ratzinger brings together recent emphasis on the theology of hope for the future with the more traditional elements of the doctrine. His book has proven to be as timeless as it is timely. Charity in Truth Ignatius Press Given in Rome, at Saint Peter's on December 25th, the Solemnity of the Nativity of the Lord, in the year

Summaries of Catholic teaching  
Wm. B. Eerdmans Publishing  
Pope Benedict XVI's second encyclical, *Saved In Hope*, ("Spe Salvi" in Latin) takes its title from St. Paul, who wrote, "In hope we have been saved." In this special deluxe hardcover edition of the work, the Holy Father continues a

line of thought he began with his first encyclical, *God is Love*. Love and Hope are closely related in the spiritual life. Love of God involves hope or trust in God. According to the Catechism of the Catholic Church, "The virtue of hope responds to the aspiration to happiness which God has placed in the heart of every man." Hope enables us to look to the next life, but it also inspires and purifies our actions in this life. Pope Benedict considers modern philosophies and the challenges of faith today in light of the virtue of hope.  
"Confronted by

today's changing and complex panorama, the virtue of hope is subject to harsh trials in the community of believers. For this very reason, we must be apostles who are filled with hope and joyful trust in God's promises. In contemporary society, which shows such visible signs of secularism, we must not give in to despair." -- Pope Benedict XVI  
John Paul II TAN Books  
In his latest book, Terry Eagleton, one of the most celebrated intellects of our time, considers the least regarded of the virtues. His compelling meditation on hope begins with a firm

rejection of the role of optimism in life's course. Like its close relative, pessimism, it is more a system of rationalization than a reliable lens on reality, reflecting the cast of one's temperament in place of true discernment. Eagleton turns then to hope, probing the meaning of this familiar but elusive word: Is it an emotion? How does it differ from desire? Does it fetishize the future? Finally, Eagleton broaches a new concept of tragic hope, in which this old virtue represents a strength that remains even after devastating loss has been confronted. In a wide-ranging discussion that encompasses Shakespeare's *Lear*, Kierkegaard on despair, Aquinas, Wittgenstein, St.

Augustine, Kant, Walter Benjamin's theory of history, and a long consideration of the prominent philosopher of hope, Ernst Bloch, Eagleton displays his masterful and highly creative fluency in literature, philosophy, theology, and political theory. Hope without Optimism is full of the customary wit and lucidity of this writer whose reputation rests not only on his pathbreaking ideas but on his ability to engage the reader in the urgent issues of life.
