[Single Board Computers | EMAC Inc.](#)

Single Board Computer (SBC) offers a ready-to-use embedded development platform for building end-products. SBC accelerates time-to-market and minimizes development cost and risk. However, System on Module (SoM)/Computer on Module (CoM) is a more appropriate choice for building embedded products. I will attempt to defend my assertion using a fictional case presented below.

Products | EMAC Inc.

The PFM-540I is a single board computer is a "wing-less," low-power, high performance platform. It can operate continuously at temperatures up to 140° F (60° C) without a fan, with a wide-temp option available.
