This dynamic full-
colour text actively
engages students in

their exploration of
Canadian law and
its social, political,
and global
ramifications.
Canadian and
International Law
connects the
historical roots of
law to issues in
contemporary
society. Developed
and tested by highly
experienced

teachers, subject
specialists, and
students for
maximum classroom
applicability. This
text is sufficiently
rigorous for
university prep, yet
has been designed to
meet the language
and interests of
grade 12 students.
**Principles of
Math 12**

Ministry of Education and Training
This stimulating volume offers a broad collection of the principles of geometry and trigonometry and contains colorful diagrams to bring mathematical principles to life. Subjects are enriched by references to famous mathematicians and their ideas, and the stories are presented in a very comprehensible way.

Readers investigate the relationships of points, lines, surfaces, and solids. They study construction methods for drawing figures, a wealth of facts about these figures, and above all, methods to prove the facts. They learn about triangle measure for circular motion, sine and cosine, tangent and secant, and trigonometric

functions that are applied to right triangles.
