The shocking true crime story of an Alaskan college student's murder and her mother's relentless crusade for the truth. When police told Karen Foster that her eighteen-year-old daughter, Bonnie Craig, had died in a hiking accident, she knew the pieces of the investigation just didn't add up. Bonnie would have never ditched her classes at the University of Alaska to go hiking. And she didn't drive—so how would she have reached McHugh Creek, miles outside of Anchorage, in the first place? Armed with little more than her own conviction, Karen set out to find the

truth behind her daughter's death. After a long series of false leads and dead ends, it seemed the case would forever go unsolved. Then, after twelve years of public campaigning, private despair, and increasingly tense dealings with the detectives working the case, Karen received an e-mail that would change everything: the system, at long last, had produced a match for the unknown DNA in the case—from a man in a jail all the way across the country. Here is the chilling tale of a mother's unflagging fight to track down the monster who stole her daughter's life—and the battle to ensure that he, and others like him, would no longer be able to evade justice.

Do parents with adoptive children see themselves as similar to or different from nonadoptive parents? Is the stigma attached to adoption lessening? Does open communication about adoption contribute to the family's well-being? How successful are adoptive adults at putting their adolescent turmoil behind them? These and many other important and

complex questions are addressed in Families and Adoption, an informative guidebook that shows you how adoption is both a condition and a lifelong process. Families and Adoption discusses legislation that can serve the needs of various members of the adoptive experience to deepen your understanding of the key legal issues associated with consent and openness. It also provides you with detailed coverage of changes in adoption law, open adoption research results, transracial and transethnic adoption, and the consequences of placing versus parenting for unmarried, teenage women who give birth. Graduate students, social workers, adoption professionals, members of adoptive families, and couples wishing to adopt will find there isn't a rock that Families and Adoption leaves unturned. It presents you with vital information on the following topics: the developmental stages of reunion between an adoptive child and birth parent, notions of adoption, parenthood, and kinship and how these notions are challenged after a reunion has taken place, the institution of adoption as it has existed for decades in American society, international adoption, respecting the bonds children have and helping them develop critical attachment skills, those who "accept" open-adoption and those who "embrace" it, flexible parenting styles and their positive effect on developmentally vulnerable adoptees. A skillful blend of personal adoption experiences and research studies, Families and Adoption explores the special issues adoption presents and how all parties involved can work together to improve placement decisions, ensure that a woman is confident in her decision to relinquish her child, and help families select the most appropriate adoption arrangement. The book's main strength is that it doesn't just look at the initial considerations of adoption; it prepares you for the issues that will arise along the way.
