Normal and Pathologic Findings Bantam

The Whys of a Philosophical Scrivener showcases Martin Gardner as the consummate philosopher, thinker, and great mathematician that he is. Exploring issues that range from faith to prayer to evil to immortality, and far beyond, Gardner challenges the discerning reader with fundamental questions of classical philosophy and life's greater meanings. Recalling such philosophers as Wittgenstein and Arendt, The Whys of Philosophical Scrivener embodies Martin Gardner's unceasing interest and joy in the impenetrable mysteries of life.

31 Days of Prayer for My Wife W. W. Norton & Company

It began with a sin, committed by Kenshin, back during his bloody days as hitokiri or a government-sanctioned slayer of men. Although stopping most of the assassins who still come seeking revenge should be easy enough, what of the innocent--Sanosuke and Yahiko (Kenshin's comrades), everyone at Akabeko Inn (Kenshin's friends), Kaoru (Kenshin's...?). For once there was another love in Kenshin's life, one which--given his nature--must by definition have been tragic. Can Kenshin escape the shades of his past, and find the will to fight for the real world--for the living--for reality?! -- VIZ Media

[Dora Helps Diego! \(Dora the Explorer\)](#) VIZ Media LLC

"This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

Manga Majesty Alpha Science Int'l Ltd.

In 1844, Charles Dickens took a break from novel writing to travel through Italy for almost a year, and Pictures from Italy is an illuminating account of his experiences there. He presents the country like a magic-lantern show, as vivid images ceaselessly appear before his - and his readers' - eyes. Italy's most famous sights are all to be found here - St Peter's in Rome, Naples with Vesuvius smouldering in the background, the fairytale buildings and canals of Venice - but Dickens's chronicle is not simply that of a tourist. Combining compelling travelogue with piercing social commentary, he portrays a nation of great contrasts: between grandiose buildings and squalid poverty, ancient monuments and everyday life, past and present.

Live Your Dreams As Millions Have by Controlling the Power of Your Mind BroadStreet Publishing Group LLC

"The third edition earmarks the great success of this text among the students as well as the teachers. To enhance its utility one additional appendix on "The Theory of Errors" has been incorporated along with necessary modifications and corrections in the text. The treatment, as before, is rigorous yet impressively elegant and simple. The special feature of this text is its effort to resolve many outstanding confusions of probability and statistics. This will undoubtedly continue to be a valuable companion for all those pursuing a career in Statistics."--BOOK JACKET.

[Controlling Cholesterol](#) Good Press

This successful text puts personality back into the personality course, integrating the classic insights of the personality theorists with modern research in a manner that will fascinate and captive students. Organized around eight basic aspects of personality-psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and situational/interactionist-the text both explains the classic theories and also explores how the information applies to the student reader. The text presents a balanced, critical, yet optimistic approach. Personality encourages critical thinking about human nature. While holding the highest scientific standards, the text uses unique and provocative pedagogical devices (see below) to capture students' interest and bring the field of personality to life. It has been hailed as the best-written and most relevant personality textbook in the field.
