18 Science and the Modern World - Harvard University

Science Made the Modern World, and it ’ s science that shapes modern culture. That ’ s a sentiment that gained currency in the latter part of the nineteenth century and the early twentieth century—a sentiment that seemed almost too obvious to articulate then and whose obviousness has, if anything, become even more pronounced over time. Science continues to Make the Modern World.

Science and the modern world : Lowell lectures, 1925

...earliest writing about God) as Science and the Modern World. In it he dramatically described what had long engaged his meditation; namely, the rise, triumph, and impact of “ scientific materialism ” —i.e., the view that nature consists of nothing else but matter in motion, or a flux of purely physical energy.
