Life Science for grades 5 to 8 is designed to

aid in the review and practice of life

science topics. Life Science covers topics such as classifying animals, plant and

animal structures, life cycles, biomes, and

energy transfer. The book includes realistic diagrams and engaging activities to support

practice in all areas of life science. --The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.
