Spectrum Science, Grade 4 Carson-Dellosa
Publishing

Supplement your science curriculum with 180
days of daily practice! This invaluable
classroom resource provides teachers with
weekly science units that build students'
content-area literacy, and are easy to
incorporate into the classroom. Students will
analyze and evaluate scientific data and

scenarios, improve their understanding of
science and engineering practices, answer
constructed-response questions, and increase
their higher-order thinking skills. Each week
covers a particular topic within one of three
science strands: life science, physical science,
and Earth and space science. Aligned to Next
Generation Science Standards (NGSS) and
state standards, this resource includes digital
materials. Provide students with the skills they
need to think like scientists with this essential
resource!

Spectrum Science, Grade 3 Cambridge
University Press

An understanding of language arts
concepts is key to strong
communication skills—the foundation of
success across disciplines. Spectrum
Language Arts for grade 6 provides
focused practice and creative activities
to help your child master vocabulary,
parts of speech, sentence types, and
grammar. --This comprehensive
workbook doesn't stop with focused
practice—it encourages children to
explore their creative sides by
challenging them with thought-
provoking writing projects. Aligned to
current state standards, Spectrum
Language Arts for grade 6 includes an
answer key and a supplemental
Writer's Guide to reinforce grammar
and language arts concepts. With the
help of Spectrum, your child will build
the language arts skills necessary for a
lifetime of success.

Harcourt Science MacMillan
The innovative Truth-in-Science curriculum is a full-year program for grades 3-6, that allows your student to study Scripture with science to build his faith. Truth-in-Science will enable your student to develop a foundational Biblical worldview while he discovers the joy of studying Life Science, Earth Science, and Physical Science. This curriculum, both Teacher's Edition and student Steps, includes 11 chapters of study designed to meet the nationally accepted science content standards. Interwoven into each lesson and supporting material is valuable Biblical worldview information that will enlighten and strengthen both the student and the instructor! The self-contained student Steps offer the student the same solid science study and Biblical worldview presentation for each grade level subject.

Glencoe iScience, Integrated Course 1, Grade 6, Reading Essentials, Student Edition Skill Sharpeners Science

Oxford International Primary Science is a complete six-year primary science course that takes an enquiry-based approach to learning about science, engaging students in the topics through asking questions that make them think, and activities that encourage them to explore, discover and practise.

Truth in Science

PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. STEM subjects are where the future's at. Now you can be a science superstar with this colorful practice ebook. Are you a budding Einstein? Or do you need a little more help to avoid falling behind in science class? This workbook will help cement everything you need to know about "STE" subjects through practice questions and practical exercises. Easy-to-follow instructions allow you to try out what you've studied, helping you understand what you've learned in school or giving extra study practice before that important test. Aimed at children aged 7-14 (Grades 2 and up), the ebook covers all the key areas of the school curriculum, including how science works, life, matter, energy, forces, and Earth and space. And there are answers at the back to check that you're on the right path. This workbook accompanies the How to Be Good at Science, Technology, and Engineering coursebook, but can also be used on its own.

Truth in Science - Grade 6 Total Package Rainbow Bridge Publishing

Increase your appreciation of God's wonderful creation through a study of various concepts about earth science, life science, physical science, and the human body in Science 6.

Learn about new and current technology being developed that utilizes and benefits from science. Explore earthquakes and volcanoes, weathering and erosion, natural resources, and astronomy while learning about the earth and space. Life science topics include cells and classification systems as well as reproduction and genetics. While studying physical science, investigate atoms and molecules, electricity and magnetism, and motion and machines. Discover the wonders of the human body as you study the nervous and immune systems. Your student will enrich his critical thinking skills through the hands-on activities and the use of diagrams, charts, and visuals. - Publisher.

Science, Grade 6 Steck-Vaughn Company
Gain a complete understanding of Grades 6, 7 and 8 STEM subjects. From atoms and rocketships to vaccines and the human nervous system, this fully illustrated home learning workbook will help your child be at the top of their science class! This engaging science book for kids makes tricky topics and challenging concepts completely crystal clear! Here's what's inside: * Covers the core STEM topics, from biology, chemistry and physics, to technology. * Clearly laid out with easy-to-follow instructions for children to use by themselves. * Answers are given at the back of the book. * Practice questions and practical exercises to help expand your child's knowledge of the subject. Take your child's STEM learning to the next level Did you know that many plants have a transport system to carry water and nutrients wherever they are needed? Or that most power stations around the world burn fossil fuels to make electricity? Packed with fascinating facts, fun graphics and step-by-step explanations, this brilliant visual workbook makes understanding science, technology and engineering super simple! It's perfect for extra science revision practice before an important test. Perfect for children ages 11-14, this colorful science practice book covers all the key areas of the school curriculum for this level. It includes genes and DNA, molecules, chemical reactions, the periodic table, heat transfer, electricity and magnetism, seasons and climate zones, and lots more. And there are answers at the back to check that you're on the right path. This engaging and clear science workbook accompanies How to be Good at Science, Technology, and Engineering Grade 2-5 which covers ages 7-11 (Grades 2, 3, 4 and 5). Discover How to be Good at other subjects DK's successful How to be Good at... workbook series provides your child with the tools to learn how to look at the world around them and figure out how it works. There are more books to discover! Learn everything they need to know about math through eye-catching illustrations and easy-to-follow instructions with How to Be Good at Math.
