Science Journals | List of Peer-reviewed Scientific ...

In academic publishing, a scientific journal is a periodical publication intended to further the progress of science, usually by reporting new research.

Journals | Science | AAAS

A: Scientific journals represent the most vital means for disseminating research findings and are usually specialized for different academic disciplines or subdisciplines. Often, the research challenges common assumptions and/or the research data presented in the published scientific literature in order to gain a clearer understanding of the facts and findings.
