I teach 3rd grade. We were working through a non fiction writing unit. One student chose to research and write about sharks. When asked to answer where sharks came from she answered, " San Jose " as though there were no other possible answer. It took a second for me to figure out she was talking about the San Jose Sharks hockey team!

The answer is that they likely prefer to do something else and realize they can receive the same grade as the rest of the group without contributing to the effort. This result is often termed the free rider problem , because some individuals can receive benefits (get a free ride) without helping to bear the cost.
