Sea-Doo Water Vehicles 88-96

Popular Mechanics Prentice Hall
A guided tour of the world's best sailboats with an entertaining expert at your side. With over

100,000 copies sold, these volumes have become invaluable reference for sailors and would-be sailors alike. Using 400 magnificent color photographs and black-and-white illustrations per volume, *M á t é* analyzes the designs and construction methods of the 30 best boat-builders in the world, builders who have, over the years, consistently shown the highest quality and most creative innovation. He visited boatyards in Europe, Canada, and the United States, for his scrupulous firsthand survey. While revealing the secrets of the best builders, he lucidly demonstrates what makes these boats the best, furnishing knowledge that can then be applied while choosing any sailboat of whatever make. Besides the perennial classics of Alden, Baltic, Hinckley and Swan, are new entries like the super-fast J-Boats and super luxurious Oysters. The color photographs are benchmarks in nautical publishing, while the writing is thoughtful, hugely informative and always entertaining.

My Electric Boats is the 2nd Edition of the popular textbook Electric Propulsion for Boats.

This updated version includes a new Rhodes 19/Etek conversion, plus more performance and efficiency tests, new photos and four complete step-by-step conversion chapters. Divided into three sections, the book starts with an overview of the author's successes and failures while researching basic concepts. With each success, he moves ahead until you have an excellent understanding of electric propulsion for boats. Delving deeply into all the technical aspects of electric propulsion, the book guides you thoroughly through each phase of the required work, with easy-to-follow explanations for each step. The examples and processes can be easily modified for small or larger vessels. If you have an interest in eco-friendly propulsion for your boat, this is the perfect place to start.
