Making decisions at any age is not always an easy feat. When you are walking with the Lord Jesus Christ, it makes sense to pray and do the next right thing. As life moves at ninety miles an hour, moving with the flow can set you up to make split-second decisions. Taking what we think is the easy way is often the hardest of all. We are told in 1 Peter 5:7 to cast all our cares on Him because He cares for us. Taking the Jesus way out is always the best way. It may not be the easy that we are looking for, but it will not leave the collateral damage that our way leaves behind. The roads that we walk down in life are covered with attractive billboards drawing us to off-ramps that will lead us to destruction. It is so important to keep our eyes fixed on Jesus Christ as we walk life's highways and byways so we are not lured into the craziness that the world has to offer. Taking life one moment at a time is actually a doable thing. Life moves in seconds, not days. Don't let one trial take you down. Romans 8:13 says that we are more than conquerors, and thankfully, God is a god of do-overs!

The most fun you'll ever have learning about antiques, from the man the Philadelphia Daily News has called "the godfather of Cape May County antiquing," can be found in The Antique Story Book: Finding the Real Value of Old Things. From his columns, lectures, and classes on antiques, author Arthur Schwerdt, a certified appraiser and dealer for nearly a quarter of a century, shares some of his favorite stories-the ones that make antiques so fascinating to so many people. In "Love and Sex-Victorian Style," Schwerdt tells how he learns about intimacy in that era and wonders what future antique hunters will learn about our sexuality. "The Mysterious Creator(s) of Nancy Drew" discusses the identity of the man who conceptualized Nancy Drew and her character's influence on future literature. Most importantly, Schwerdt divulges the most enjoyable, valuable, and meaningful aspect of antiquing-the stories behind each treasure. Long ago, every item in today's antique shops existed as a product of its time. The Antique Story Book makes these items come alive again, making astute antique-lovers of us all.

The Antique Story Book "O'Reilly Media, Inc."  
2008 Outstanding Academic Title, Choice Magazine From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent-and loud-fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it-personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.
