H. P. Lovecraft (1890 - 1937) was the most important American horror fiction writer of the first half of the 20th century whose fiction, especially about the Cthulhu Mythos universe, spanned both time and space. He never achieved financial success; however, he did become good friends with several big writers, notably Robert Bloch (Psycho) and Robert E. Howard of Conan fame. The "Cthulhu Mythos" grew out of the Lovecraft Circle, a writing group where everyone shared in Lovecraft's Mythos stories. The most famous of these were "The Call of Cthulhu" and "At the Mountains of Madness". Many novels and stories have come from his Mythos tales, one of the most famous being The Necronomicon, written by the "Mad Arab" Abdul Alhazred, which first appeared in Lovecraft's story "The Hound". Lovecraft's health and financial situation began to fail seriously in the mid-1930s. He died in 1937 of cancer of the intestine, never knowing what a giant of the horror genre he was to become.

"Ripley is an unmistakable descendant of Gatsby, that 'penniless young man without a past' who

will stop at nothing."—Frank Rich Now part of American film and literary lore, Tom Ripley, "a bisexual psychopath and art forger who murders without remorse when his comforts are threatened" (New York Times Book Review), was Patricia Highsmith's favorite creation. In these volumes, we find Ripley ensconced on a French estate with a wealthy wife, a world-class art collection, and a past to hide. In *Ripley Under Ground* (1970), an art forgery goes awry and Ripley is threatened with exposure; in *The Boy Who Followed Ripley* (1980), Highsmith explores Ripley's bizarrely paternal relationship with a troubled young runaway, whose abduction draws them into Berlin's seamy underworld; and in *Ripley Under Water* (1991), Ripley is confronted by a snooping American couple obsessed with the disappearance of an art collector who visited Ripley years before. More than any other

American literary character, Ripley provides "a lens to peer into the sinister machinations of human behavior" (John Freeman, Pittsburgh Gazette).

When Lieutenant Lawrence Miller first sees U.S.S. Bacalao in the builder's yard in late 1940, the submarine is little more than a pile of curved steel plates. During the next few months Miller watches the boat take shape, and the crew gather from throughout the fleet. By late 1941 Bacalao is in commission and

assigned to the Pacific Fleet at Pearl Harbor. Then, on a Sunday morning, everything changes as the Japanese sneak attack plunges the United States into World War II. The new submarine and her untried crew are immediately thrown into action against the Japanese. And Miller is there through it all, from the disastrous first patrol, when the boat is nearly lost and a pair of surprising heroes emerge, to the deployment to Australia, where a chance encounter ashore will change his life forever. Then, after spending a year in command of an antiquated S-boat in the frozen hell of the Aleutians, Miller returns to Bacalao as her last wartime commander. Written in a simple, straightforward style, Bacalao is destined to become an instant classic of submarine fiction.

Tiny's voice screamed over the radio, "Fox-3! Smoke in the air. Tiny's still spiked, breaking left." Tiny fired a retaliatory shot and was turning for all he was worth in a desperate, last-ditch attempt to evade the incoming Chinese missile. Slammer jerked his trigger then pressed the mic switch, "Fox-3!" The AMRAAM left his plane with a surprisingly loud scream. A moment later the sky was latticed with smoke trails as Quick and Lips followed suit. He watched their missiles travel downrange with disbelief. The Rhinos were now too close to merging to take evasive maneuvers. Any turn away at this range would just put the Flankers on their tails. Committed to a head-on pass, he pulled his throttles to idle to reduce the infrared signature from his engines and held his

breath, watching for any more missiles coming his way. Five missiles - four American and one Chinese - closed in on their prey with a combined closure rate of Mach 6, or 4,000 knots. Roughly one mile per second. It would be the longest six seconds of Slammer's life.

In the tradition of Clancy, Griffin, and Cussler, newcomer R.E. McDermott delivers a thriller to rival the masters. When consultant and very part-time spook Tom Dugan finds himself becoming collateral damage in the War on Terror, he's not about to take it lying down. Falsely implicated in a hijacking, he's offered a chance to clear his own name by helping the CIA hook what they consider to be the bigger fish, Dugan's long-time friend, London ship owner Alex Kairouz.

Reluctantly, Dugan agrees to go undercover in Alex's company, despite doubts about his friend's guilt. Once undercover, Dugan's steadfast refusal

to accept Alex's guilt puts him at odds with both his CIA handlers and a beautiful British agent with whom he's working. When a tanker is found adrift near Singapore with a dead crew, and another explodes in port as Alex lies near death after a suspicious suicide attempt, Dugan is framed for the attacks. Out of options, and convinced the attacks are prelude to an even more devastating assault, Dugan eludes capture to follow his last lead to Russia, only to be shanghaied as an 'advisor' to a Russian Spetsnaz unit on a near-suicidal mission. *Deadly Straits* is a non-stop thrill ride, transporting the reader from London offices, to the dry docks of Singapore, to the decks of the tankers that slake the world's thirst for oil, with stopovers in Panama, Langley, Virginia, and Teheran. Richly spiced with detail from the author's thirty years sailing, building, and repairing ships around the globe, it is, in the

words of one reviewer, "fast-paced, multi-layered and gripping."READER COMMENTS"An awesome book! It has a very Tom Clancy feel. Kudos to Mr. McDermott. Well done, Sir."D. With breathless pacing and punchy prose, McDermott knots a plot so real it might well be breaking news. Deadly Straits ravages like a cat 5 hurricane: unpredictable, merciless, and fierce.L.C. Action non-stop ... a great read."Cheryl M-M, Amazon (UK) - 5 Stars"In 1994 Tom Clancy's "Debt of Honor" used a jumbo jet as a suicide missile ... it happened for real on 9/11. In 2011 R.E. McDermott published "Deadly Straits" where supertankers are used as terror weapons with deadly results. Let's hope we don't look back and say McDermott predicted that. This is a book of action and suspense, well written with multiple plots woven into one coherent whole. I've read several best-sellers that are legends in the genre and this book is as well done as any of them, if not better." Stephen C. Lovely, Amazon - 5 Stars"Expert plotting ... the sheer excitement of the story kept me reading until I finished in two
