In November 1963, the president of South Vietnam and his brother were brutally executed in a coup that was sanctioned and supported by the American government. President Kennedy later explained to his close friend Paul "Red" Fay that the reason the United States made the fateful decision to get rid of the Ngo's was in no small part because of South Vietnam's first lady, Madame Nhu. "That goddamn bitch," Fay remembers President Kennedy saying, "She's responsible ... that bitch

stuck her nose in and boiled up the whole situation down there." The coup marked the collapse of the Diem government and became the US entry point for a decade-long conflict in Vietnam. Kennedy's death and the atrocities of the ensuing war eclipsed the memory of Madame Nhu -- with her daunting mixture of fierceness and beauty. But at the time, to David Halberstam, she was "the beautiful but diabolic sex dictatress," and Malcolm Browne called her "the most dangerous enemy a man can have." By 1987, the once-glamorous celebrity had retreated into exile and seclusion, and remained there until young American Monique Demery tracked her down in Paris thirty years later. Finding the Dragon Lady is Demery's story of her improbable relationship with Madame Nhu, and -- having ultimately

been entrusted with Madame Nhu's unpublished memoirs and her diary from the years leading up to the coup -- the first full history of the Dragon Lady herself, a woman who was feared and fantasized over in her time, and who singlehandedly frustrated the government of one of the world's superpowers.

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science.

Through painstaking research and a witty, sarcastic style, Fort

captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Boy's Book of Sea Fights

Now in paperback, revised and updated, the stirring and authoritative account of one of World War II's most highly decorated submarines Find ' Em, Chase ' Em, Sink ' Em is the first book to recount the tragic and mysterious loss of the World War II submarine USS Gudgeon. In April 1944, the highly decorated submarine

USS Gudgeon slipped beneath the waves in one of the most treacherous patrol areas in the most dangerous military service during World War II. Neither the Gudgeon nor the crew was ever seen again. Author Mike Ostlund ' s " Uncle Bill, " the operator of a farm implements business, was aboard that ship as a lieutenant junior grade.

Through extensive research of patrol reports in U.S. and Japanese naval archives, interviews with veterans who had served aboard the Gudgeon before its final patrol, and the personal effects of the lost men ' s relatives, Ostlund has assembled the most accurate account yet of this remarkably successful submarine ' s exploits, of the men aboard from steward to captain, and of what we now know about her demise. Find ' Em, Chase ' Em, Sink ' Em details the memories and life lessons of the young men who went to sea aboard Gudgeon before its last patrol knowing hardly anything, and came home having seen too much.

Sea of Thunder W. W. Norton & Company
This " important comprehensive study " of WWII in the Pacific examines the high-level

decision-making and strategy that led to victory (Roanoke Times). Once the stories have been told of battles won and lost, most of what happens in a war remains a mystery. So it has been with accounts of World War II in the Pacific, a complex conflict whose nature is often obscured by simple chronological narratives. In *The Pacific War*, William B. Hopkins, a Marine Corps veteran of the Pacific war and respected military history author, opens the story of the Pacific campaign to a broader and deeper view. Hopkins investigates the strategies, politics, and personalities that shaped the fighting. His regional approach to this complex war conducted on land, sea, and air offers an insightful perspective on how this multifaceted conflict unfolded. As expansive as the immense reaches of the Pacific, and as focused as the most intensive pinpoint attack on a strategic island, Hopkins ' account offers a fresh way of understanding the hows—and more significantly, the whys—of the Pacific War.

Rabindranath Tagore reinvented the Bengali novel with *Farewell Song*, blurring the lines between prose and poetry and creating an effervescent blend of romance and satire. Through *Amit* and *Labanya* and a brilliantly etched social milieu, the novel addresses

contemporary debates about 'good' and 'bad' writing, the nature of love and conjugality, and the influence of Western culture on Bengali society. Set against the idyllic backdrop of Shillong and the mannered world of elite Calcutta society, this sparkling novel expresses the complex vision and the mastery of style that characterized Tagore's later works. Tagore was not only an immensely versatile poet; he was also a great short story writer, novelist, playwright, essayist, and composer of songs.

Evan Thomas takes us inside the naval war of 1941-1945 in the South Pacific in a way that blends the best of military and cultural history and riveting narrative drama. He follows four men throughout: Admiral William ("Bull") Halsey, the macho, gallant, racist American fleet commander; Admiral Takeo Kurita, the Japanese battleship commander charged with making what was, in essence, a suicidal fleet attack against the American invasion of the Philippines; Admiral Matome Ugaki, a self-styled samurai who was the commander of all kamikazes and himself the last kamikaze of the war; and Commander Ernest Evans, a Cherokee Indian and Annapolis graduate who led his destroyer on the last great charge in the last great naval battle in history. *Sea of*

Thunder climaxes with the Battle of Leyte Gulf, the biggest naval battle ever fought, over four bloody and harrowing days in October 1944. We see Halsey make an epic blunder just as he reaches for true glory; we see the Japanese navy literally sailing in circles, torn between the desire to die heroically and the exhausted, unacceptable realization that death is futile; we sail with Commander Evans and the men of the USS Johnston into the jaws of the Japanese fleet and exult and suffer with them as they torpedo a cruiser, bluff and confuse the enemy -- and then, their ship sunk, endure fifty horrific hours in shark-infested water. Thomas, a journalist and historian, traveled to Japan, where he interviewed veterans of the Imperial Japanese Navy who survived the Battle of Leyte Gulf and friends and family of the two Japanese admirals. From new documents and interviews, he was able to piece together and answer mysteries about the Battle of Leyte Gulf that have puzzled historians for decades. He writes with a knowing feel for the clash of cultures. *Sea of Thunder* is a taut, fast-paced, suspenseful narrative of the last great naval war, an important contribution to the history of the Second World War.

Find 'Em, Chase 'Em, Sink 'Em Penguin

A riveting account of the five most crucial days in twentieth-century diplomatic history: from Pearl Harbor to Hitler's declaration of war on the United States. By early December 1941, war had changed much of the world beyond recognition. Nazi Germany occupied most of the European continent, while in Asia, the Second Sino-Japanese War had turned China into a battleground. But these conflicts were not yet inextricably linked—and the United States remained at peace. Hitler's *American Gamble* recounts the five days that upended everything: December 7 to 11. Tracing developments in real time and backed by deep archival research, historians Brendan Simms and Charlie Laderman show how Hitler's intervention was not the inexplicable decision of a man so bloodthirsty that he forgot all strategy, but a calculated risk that can only be understood in a truly global context. This book reveals how December 11, not Pearl Harbor, was the real watershed that created a world war and transformed international history.

Thunder Below! Quarto Publishing Group USA

A heart-pounding First World War naval thriller featuring the rebel Captain Cochrane Smith. 1917: After three years, the outcome of the Great War is poised on a knife-edge. David Cochrane Smith, captain of the armoured cruiser HMS Thunder, is patrolling off the coast of South America. But then he attacks and sinks the Gerda, a neutral ship in a neutral port. Smith already has a reputation as a maverick and now he faces professional ruin. But he is certain he was right, that the Gerda was one of two ships masquerading under neutral flags that are in fact supply vessels for the mighty German warships, Kondor and Wolf. Only an outdated cruiser and a young captain prepared to break all the rules stand in their way... Thunder At Dawn is an edge-of-the-seat naval adventure that combines thrilling story-telling with meticulous research, perfect for readers of Alexander Fullerton, Julian Stockwin and Philip McCutchan. Praise for Alan Evans 'I think a 21 gun salute is required...Alan Evans has produced a cracking thriller' Daily Mirror 'Evans provides a different sea story, sustained suspense and vivid battle scenes' Publishers Weekly Farewell Song (Modern

Classics) Pickle Partners Publishing Winner of the Northern California Book Award for Nonfiction "Both a serious work of history...and a marvelously readable dramatic narrative." —San Francisco Chronicle On the first Sunday in December 1941, an armada of Japanese warplanes appeared suddenly over Pearl Harbor, Hawaii, and devastated the U.S. Pacific Fleet. Six months later, in a sea fight north of the tiny atoll of Midway, four Japanese aircraft carriers were sent into the abyss, a blow that destroyed the offensive power of their fleet. Pacific Crucible—through a dramatic narrative relying predominantly on primary sources and eyewitness accounts of heroism and sacrifice from both navies—tells the epic tale of these first searing months of the Pacific war, when the U.S. Navy shook off the worst defeat in American military history to seize the strategic initiative. of the United States With its thunderous assault on the Mariana Islands in June 1944, the United States crossed the threshold of total war. In this tour de force of dramatic storytelling, distilled from extensive research in newly discovered primary sources, James D. Hornfischer brings to life the campaign that was the fulcrum of the drive to compel Tokyo to surrender—and that forever changed the art of modern war. With a close focus on high commanders, front-line combatants, and ordinary people, American and Japanese alike, Hornfischer tells the story of the climactic end of the Pacific War as has never been done before. Here are the epic seaborne invasions of Saipan, Tinian, and Guam, the stunning aerial battles of the Great Marianas Turkey Shoot, the first large-scale use of Navy underwater demolition teams, the largest banzai attack of the war, and the daring combat operations large and small that made possible the strategic bombing offensive culminating in the atomic strikes on Hiroshima and Nagasaki. From the seas of the Central Pacific to the shores of Japan itself, The Fleet at Flood Tide is a stirring, authoritative, and cinematic portrayal of World War II 's world-changing finale. Ike's Bluff Penguin

Evan Thomas's startling account of how the underrated Dwight

Eisenhower saved the world from nuclear holocaust. Upon assuming the presidency in 1953, Dwight Eisenhower set about to make good on his campaign promise to end the Korean War. Yet while Eisenhower was quickly viewed by many as a doddering lightweight, behind the bland smile and simple speech was a master tactician. To end the hostilities, Eisenhower would take a colossal risk by bluffing that he might use nuclear weapons against the Communist Chinese, while at the same time restraining his generals and advisors who favored the strikes.

Ike's gamble was of such magnitude that there could be but two outcomes: thousands of lives saved, or millions of lives lost. A tense, vivid and revisionist account of a president who was then, and still is today, underestimated, *Ike's Bluff* is history at its most provocative and thrilling.

A Chain of Thunder Canelo

This is a book about submarine warfare that was made into a movie starring Bert Lancaster and Clarke Gable. There are similarities with the famous novel *Moby Dick*, as the commander is determined to get revenge on a Japanese ship who had sunk the submarine commanded by his friend, and so he ignores more important targets. *Run Silent, Run Deep* is a novel by Commander (later Captain) Edward L.

Beach Jr. The story describes World War II submarine warfare in the Pacific Ocean, and deals with themes of

vengeance, endurance, courage, loyalty and honor, and how these can be tested during wartime. The name

refers to "silent running", a submarine stealth tactic. The

novel was on The New York Times Book Review list for several months. The staff of New York Times Book Review included it on their list of 250 Outstanding Books of the

Year. Beach served on submarines in the Pacific

during the war. The narrative is presented as the transcript of a Navy tape recording made by Commander Edward J.

Richardson, recounting the events resulting in his receipt of the Medal of Honor. The note that purports to identify the text in this way says it was

meant to be used in a war bond drive, but is unsuitable for that because Richardson "failed to confine himself to pertinent elements of the broad strategy of the war."

Operation Jedburgh Macmillan + ORM

The biography of legendary admiral Chester W. Nimitz, master military strategist and visionary of submarine operations. Chester Nimitz was an admiral's Admiral, considered by many to be the greatest naval leader of the last

century. After the attack on Pearl Harbor, Nimitz assembled the forces, selected the leaders, and as commander of all U.S. and Allied air, land, and sea forces in the Pacific Ocean - led the charge one island at a time, one battle at a time, toward victory. A brilliant strategist, he astounded contemporaries by achieving military victories against fantastic odds, outpacing more flamboyant luminaries like General Douglas MacArthur and Admiral "Bull" Halsey. And he was there to accept, on behalf of the United States, the surrender of the Japanese aboard the battleship USS Missouri in August 1945. In this first biography in over three decades, Brayton Harris uses long-overlooked files and recently declassified documents to bring to life one of America's greatest wartime heroes.

The Book of the Damned

Simon and Schuster

The New York Times

bestseller from master

biographer Evan Thomas

brings to life the tumultuous

story of the father of the

American Navy. John Paul

Jones, at sea and in the heat of

the battle, was the great

American hero of the Age of

Sail. He was to history what

Patrick O' Brian's Jack

Aubrey and C.S. Forester's

Horatio Hornblower are to

fiction. Ruthless, indomitable,

clever; he vowed to sail, as he

put it, "in harm's way."

Evan Thomas's minute-by-minute re-creation of the bloodbath between Jones's Bonhomme Richard and the British man-of-war Serapis off the coast of England on an autumn night in 1779 is as gripping a sea battle as can be found in any novel. Drawing on Jones's correspondence with some of the most significant figures of the American Revolution—John Adams, Benjamin Franklin, Thomas

Jefferson—Thomas's biography teaches us that it took fighters as well as thinkers, men driven by dreams of personal glory as well as high-minded principle, to break free of the past and start a new world. Jones's spirit was classically American.

(*The New York Times Book*

Review). In the summer of 1846,

the Army of the West marched

through Santa Fe, en route to

invade and occupy the Western

territories claimed by Mexico.

Fueled by the new ideology of

"Manifest Destiny," this land

battle between the United States

and the Navajos, the fiercely

resistant rulers of a huge swath of

mountainous desert wilderness. At the center of this sweeping tale is Kit Carson, the trapper, scout, and soldier whose adventures made him a legend. Sides shows us how this illiterate mountain man understood and respected the Western tribes better than any other American, yet willingly followed orders that would ultimately devastate the Navajo nation. Rich in detail and spanning more than three decades, this is an essential addition to our understanding of how the West was really won.
