AROUND THE WORLD IN A TEACUP Did you know that tea is the most widely consumed beverage on the planet after water? Or that all of the world's tea originates from only three varieties of a single plant? While a cup of tea may be a simple pleasure for most of us, there are a dizzying number of tastes from which to choose. And every tea, whether a delicately sweet green tea from Japan or a bracing, brisk Darjeeling black, tells a story in the cup about the land that nurtured it and the tea-making skills that transformed it. In this authoritative guide, veteran tea professionals Mary Lou and Robert J. Heiss provide decades of expertise on understanding tea and its origins, the many ways to buy tea, and how to explore and enjoy the six classes of tea (green, yellow, white, oolong, black, and Pu-erh). Additional advice on steeping the perfect cup and storing tea at home, alongside a gallery of more than thirty-five individual teas with tasting notes and descriptions make *The Tea Enthusiast's Handbook* a singular source of both practical information and rich detail about this fascinating beverage.

A military response has been a viable option for combating international terrorism in the past and it will continue to be an option in the future. Possible military actions range from rescuing hostages to neutralizing terrorist camps and making direct strikes against targets verified as the infrastructure for state-sponsored training and support complexes of complex groups. The military response is part of a larger strategy that seeks to maximize the risk of punishment for terrorists and their sponsors and supporters while minimizing their potential rewards. In this context military action must be consistent with international law. If states decide that all means are justified, then those acting to preserve the rule of law in the face of the terrorist threat will become indistinguishable from the evil they seek to undo. Colonel Erickson's study presents an overview of

international law directed at the issue of managing international terrorism. This study is thought provoking and provides the decision-maker with a useful tool. Of particular note is the checklist provided in appendix A that summarizes chapters 4-6. It behooves everyone dedicated to achieving a world free from terror to learn more of this phenomenon and how we can deal with it. Colonel Erickson's study, for the first time and in one place, makes available a general survey of international law concerning this subject. I highly recommend his study. Robert W.
