Affective Health and Masculinities in South Africa Penguin

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health

and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Dear Mr. Sun Hachette Books

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In Hollywood Highbrow, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

In Las Vegas, there's a family-owned business called the Gold & Silver Pawn Shop, run by three generations of the Harrison family: Rick; his son, Big Hoss; and Rick's dad, the Old Man. Now License to Pawn takes readers behind the scenes of the hit History show Pawn Stars and shares the fascinating life story of its star, Rick Harrison, and the equally intriguing story behind the shop, the customers, and the items for sale. Rick hasn't had it easy. He was a math whiz at an early age, but developed a similarly uncanny ability to find ever-deepening trouble that nearly ruined his life. With the birth of his son, he sobered up, reconnected with his dad, and they started their booming business together. License to Pawn also offers an entertaining walk through the pawn shop's history. It's a captivating look into how the Gold & Silver works, with incredible stories about the crazy customers and the one-of-a-kind items that the shop sells. Rick isn't only a businessman; he's also a historian and keen observer of human nature. For instance, did you know that pimps wear lots of jewelry for a reason? It's because if they're arrested, jewelry doesn't get confiscated like cash does, and ready money will be available for bail. Or that WWII bomber jackets and Zippo lighters can sell for a freakishly high price in Japan? Have you ever heard that the makers of Ormolu clocks, which Rick sells for as much as \$15,000 apiece, frequently died before forty thanks to the mercury in the paint? Rick also reveals the items he loves so much he'll never sell. The shop has three Olympic bronze medals, a Patriots Super Bowl ring, a Samurai sword from 1490, and an original Iwo Jima battle plan. Each object has an incredible story behind it, of course. Rick shares them all, and so much more -- there's an irresistible treasure trove of history behind both the Gold & Silver Pawn Shop and the life of Rick Harrison.

Behind Put-in-Bay's breathtaking scenery and wild nightlife is a side of the island that will make your hair stand on end. Passersby claim to see the ghost of assistant lighthouse keeper Sam Anderson, who jumped to his death in the turbulent water of Lake Erie during an 1898 smallpox outbreak. Doors open and close of their own accord, and some say a spirit named Benny tosses things around at the Put-in-Bay Brewery and Distillery. Stage actor T.B. Alexander married the granddaughter of famous abolitionist John Brown and became one of the island's most noted mayors. His ghost is said to linger in the historic barroom of T&J's Smokehouse. Author William G. Krejci hosts this tour of the darker aspects of island life.

From the bestselling author of My Ex-Best Friend's Wedding

comes a novel about four friends who share a passion for a beloved British television show that will change all of their lives. When the concierge of The Alexander, a historic Atlanta apartment building, invites his fellow residents to join him for weekly screenings of Downton Abbey, four very different people find themselves connecting with the addictive drama, and—even more unexpectedly—with each other... Samantha Davis married young and for the wrong reason: the security of old Atlanta money—for herself and for her orphaned brother and sister. She never expected her marriage to be complicated by love and compromised by a shattering family betrayal. Claire Walker is now an empty nester and struggling author who left her home in the suburbs for the old world charm of The Alexander, and for a new and productive life. But she soon wonders if clinging to old dreams can be more destructive than having no dreams at all. And then there's Brooke MacKenzie, a woman in constant battle with her faithless ex-husband. She's just starting to realize that it's time to take a deep breath and come to terms with the fact that her life is not the fairy tale she thought it would be. For Samantha, Claire, Brooke—and Edward, who arranges the weekly gatherings—it will be a season of surprises as they forge a bond that will sustain them through some of life's hardest moments—all of it reflected in the unfolding drama, comedy, and convergent lives of Downton Abbey.

Sport is big business; international in nature and the focus of much media and cultural attention. In this Very Short Introduction, Mike Cronin charts the history of sport, from its traditional origins in folk football and cock fighting to its position as a global phenomenon today. Looking at a variety of sports from team games such as rugby, cricket, and football to games for individuals such as golf, tennis, and skiing, he considers how these first emerged and captivated the interest of ordinary people, and how sport has been transformed within our daily lives. Exploring the relationship between sport and class, gender, commerce, identity, and ethics, Cronin considers some of the central issues in sport today, including the high pay of professional footballers and the glamour of women in sports, as well as fair play standards.
