SEAGULL MODEL ULTIMATE BIPLANE - Sig Manufacturing

I just put together a seagull ultimate 90 biplane while I'm waiting on my 300sp to get here. I am looking for a "budget engine". I am looking at a crcc 26 or a 20. Is there a big size difference? I had looked at an aerovate 20 and 26 also. The 26 looks as if it would be to long. I know a 20 of either will fit. Would a 26 be overkill??

Seagull Decathlon ARF 120 - rcuniverse.com

ASSEMBLY MANUAL - Horizon Hobby

I have for sale a Model 110 / Model 90 British Seagull long-shaft outboard motor, serial number EFNRL 687DD9, manufactured April 1979. This motor is in very good running and cosmetic condition and needs no parts or repair. It came on a 25' sailboat that I bought in 1984, and would propel this 4000# keel boat at hull speed.

SEAGULL ARF PARTS - Sig Manufacturing

As you see in the first two illustrations (which are directly from the manual), the locations are somewhat vague. When I looked at the left wing, I saw 4 pinholes in the covering so I screwed a turnbuckle into each one, but as I screwed the last one in (inboard, rear), the turnbuckle just popped through the balsa and there was no blind nut for it to go into.

90-120size ultimate biplane with 28cc gas Thinking I may get more interest here than in the giant scale forum, anyhow to make long

story short, I built a 1.20 size nitroplanes arf with an MLD28 engine in it, aside from having to hack the cowl it went well, and performed pretty well.

engine for seagull ultimate 90 - FlyingGiants

90/110 Series. The Model 90 is in fact the same as the model 110. The 110 was named to be 'one up' from the Century or 100. When the 'Trades Descriptions Act' came in in the 1980's they realised the motors could not really be described as certain hp, as they did not quite 'get there' So instead they measured prop thrust, in pounds.
