In this paper, we present our design and implementation of a search engine system for Amharic language Web documents. The search engine helps users to search Amharic documents of their interest on the Web. This engine allows indexing and searching of Amharic documents written in multiple encoding representations. The crawler, indexer and query engine are the basic components of this search engine that considers the typical characteristics of the Amharic language.  
**DuckDuckGo — Privacy, simplified.**  
We have used an Amharic search engine and an open source English search engine (Nutch) as our underlying search engines for Web document crawling, indexing, searching, ranking and retrieving. To evaluate the effectiveness of our Amharic-English bilingual search engine, precision

measures were conducted on the top 10 retrieved Web documents.

Not every search engine  
supports OpenSearch yet, but  
we expect search engines will  
add support for this very  
quickly. Step Two: Change  
Your Default Search Engine  
To change your search  
provider, click the menu  
button—that's the button with  
three dots at the top-right  
corner of the Microsoft Edge  
window.
