LECTURE 01 **Part 14 Python in Amharic Language List, Tuple, Set and Dictionary Change your default search engine in Microsoft Edge**

In this paper, we present our design and implementation of a search engine system for Amharic language Web documents. The search engine helps users to search Amharic documents of their interest on the Web. This engine allows indexing and searching of Amharic documents written in multiple encoding representations. The crawler, indexer and query engine are the basic components of this search engine that considers the typical characteristics of the Amharic
