[What is search engine optimization and why ... - GoDaddy](#)

SEO (Search Engine Optimization) is the work that goes into your website to help you rank higher when customers search for your business online. Long story short, if your site is properly optimized, you'll get more visitors. And that means more potential customers and more income. That's a win.

Search Engine Optimization Godaddy

What is Search Engine Optimization? Search Engine Optimization (SEO) is the process of improving internal and external aspects of a website, or Web page, to increase its organic visibility for search engines. SEO involves editing the website's HTML code and content to make it more search engine friendly, and then promoting the site to increase its relevance on the Web.
