When Heroes Fall: An Enemies-to-Lovers Mafia Romance Little Brown & Company

A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world,

proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

Iron Widow Peter Pauper Press

First published serially in the Yiddish daily newspaper *di Varhayt* in 1916–18, *Diary of a Lonely Girl, or The Battle against Free Love* is a novel of intimate feelings and scandalous behaviors, shot through with a dark humor. From the perch of a diarist writing in first person about her own love life, Miriam Karpilove's novel offers a snarky, melodramatic criticism of radical leftist immigrant youth culture in early twentieth-century New York City. Squeezed between men who use their freethinking ideals to pressure her to be sexually available and nosy landladies who require her to maintain her respectability, the narrator expresses frustration at her vulnerable circumstances with wry irreverence. The novel boldly explores issues of consent, body autonomy, women's empowerment and disempowerment around sexuality, courtship, and politics. Karpilove immigrated to the United States from a small town near Minsk in 1905 and went on to become one of the most prolific and widely published women writers of prose in Yiddish. Kirzane's skillful translation gives English readers long-overdue access to Karpilove's

original and provocative voice.

All Dogs Go to Kevin is a humorous and touching memoir that will appeal to anyone who has ever loved an animal or lost hours in James Herriot's classic veterinary stories. You can't always count on people, but you can always count on your dog. No one knows that better than veterinarian Jessica Vogelsang. With the help of three dogs, Jessica is buoyed through adolescence, veterinary school, and the early years of motherhood. Taffy, the fearsome Lhasa; Emmett, the devil-may-care Golden; and Kekoa, the neurotic senior Labrador, are always by her side, educating her in empathy and understanding for all the oddballs and misfits who come through the vet clinic doors. Also beside her is Kevin, a human friend who lives with the joie de vivre most people only dream of having. From the clueless canine who inadvertently reveals a boyfriend's wandering ways to the companion who sees through a new mother's smiling facade, Jessica's stories from the clinic and life show how her love for canines lifts her up and grounds her, too. Above all, this book reminds us, with gentle humor and honesty, why we put up with the pee on the carpet, the chewed-up shoes, and the late-night trips to the vet: because the animals we love so much can, in fact, change our lives.

Jessica Darling's in college! Things are looking up for Jessica Darling. She has finally left her New Jersey hometown/hellhole for Columbia University in New York City; she's more into her boyfriend, Marcus Flutie, than ever (so what if he's at a Buddhist college in California?); and she's making new friends who just might qualify as stand-ins for her beloved best friend, Hope. But Jessica soon realizes that her bliss might not last. She lands an internship at a snarky Brooklyn-based magazine, but will she fit in with the überhip staff (and will she even want to)? As she and Marcus hit the rocks, will she end up falling for her GOPunk, neoconservative RA . . . or the hot (and married!) Spanish grad student she's assisting on a summer project . . . or the oh-so-sensitive emo boy down the hall? Will she even make it through college now that her parents have cut her off financially? And what do the cryptic one-word postcards from Marcus really mean? With hilarious insight, the hyperobservant Jessica Darling struggles through her college years—and the summers in between—while maintaining her usual mix of wit, cynicism, and candor.

"After many years of believing that I never dream of anything, I dreamed of Africa." Over a decade after leaving her three sons behind in Liberia, Hannah Musgrave realizes she has to leave her farm in the Adirondacks and find out what has happened to them and the chimpanzees for whom she created a sanctuary. The Darling is the story of her return to the wreckage of west Africa and the story of her past, from her middle-class American upbringing to her years in the Weather Underground. It is also one of the most powerful novels of the decade, an unforgettable tale of growth and loss, and an unstinting exploration of some of the most troubling issues of our time: terrorism, race, and the contact between the first world and the third. Hannah Musgrave, the narrator of The Darling, tells us she first travelled to Africa in the mid-1970s, to escape prosecution for her radical political activities with the Weathermen. Arriving in Liberia to work in a medical research lab, Hannah – also known by her alias, Dawn Carrington – meets Woodrow Sundiata, an official in the ministry of public health, and they fall immediately in love. Courting with Woodrow, an intelligent, ambitious man, means encountering his other life in his ancestral village of Fuama – a life that could scarcely be more different from Hannah's affluent childhood as the daughter of a bestselling pediatrician. Hannah and Woodrow start a family, but she feels herself to be somehow estranged from her

life in Liberia and curiously detached from her husband and three sons. Still in search of herself as her children grow older, Hannah develops a closer and closer bond with the chimpanzees at the lab, whom she calls "dreamers." During the early 1980s, Liberian society grows more unstable, until an illiterate soldier named Samuel Doe brutally overthrows and assassinates the president. Hannah's courageous intervention with Doe leads to Woodrow's release from detention, but at a price: she must return to the US, leaving her family behind. Hannah feels that her dreamers will feel her absence more deeply than her family will. In the US Hannah briefly reconnects with her parents after years of estrangement before returning to her friends from her underground years. One of them, Zack Procter, is involved with a plan to spring Charles Taylor – an attractive Liberian politician – from jail, and Hannah involves herself with the plot, genuinely believing that Taylor will bring social democracy to west Africa. Hannah gets permission to return to her family in the mid-1980s, and decides that this time things will be different: she will take charge of her home life, ousting Woodrow's young cousin Jeanette, and she will build a sanctuary for her chimpanzees. But Charles Taylor has also returned, and his slow and bloody rebellion against Doe leads, eventually, to a night of horrific violence in which Woodrow is murdered and Hannah's teenaged children disappear. Amidst chaos and almost unbelievable bloodshed, Hannah has time only to move her dreamers to Boniface Island before facing the heartrending decision to escape Liberia, leaving her children behind. More than ten years will pass before she can return to discover their fate, and understand her own.
