Odysseus returns at last to Ithaca where he rids his house of the evil suitors, is reunited with Penelope, and visits his aging, grieving father.

The 20Time Project Scribner

Fresh from his triumphs in the Trojan War, Odysseus, King of Ithaca, wants nothing more than to return home to his family. Instead, he offends the sea god, Poseidon, who dooms him to years of shipwreck and wandering. Battling man-eating monsters, violent storms, and the supernatural seductions of sirens and sorceresses, Odysseus will need all his strength and cunning--and a little help from Mount Olympus--to make his way home and seize his kingdom from the schemers who seek to wed his queen and usurp his throne. Award-winning graphic artist Gareth Hinds masterfully reinterprets a story of heroism, adventure, and high action that has been told and retold for more than 2,500 years--though never quite like this. With bold imagery and an ear tuned to the music of Homer's epic poem, Gareth Hinds reinterprets the ancient classic as it's never been told before.

The gods of Homer's Iliad have troubled readers for millennia, with many features of their presentation seeming to defy satisfactory explanation. Homer's Divine Audience presents and explores a new 'metaperformative' approach to scenes of divine viewing, counsel, and intervention in the Iliad, referencing the oral nature of the poem's original composition and transmission to cast the Olympian gods in part as an internal audience, who follow the action from their privileged, divine perspective much like the poet's own listeners. Although critics have already often described the gods' activities in terms of attendance at a 'show' and have suggested analogies to theatre and sports, little has yet been done to investigate the particular strategies by which the poet conveys the impression of gods attending a live, staged event. This volume's analysis of those strategies points to a 'metaperformative' significance to the motif of divine viewing: the poet is using the gods, in part, to model and thereby manipulate the ongoing dynamics of performance and live reception. The gods, like the external audience, are capable of a variety of emotional responses to events at Troy; notably pleasure and pity, but also great aloofness. By performing the speeches of the provocative, infuriating, yet ultimately obliging Zeus, the poet at key moments both challenges his listeners to take a stake in the continuation of the performance, and presents a sophisticated critique of possible responses to his poem.
