Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and

recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are

nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Murder leaps off the page when crime novelists begin to turn up dead in this intricate new novel by internationally best-selling author Elly Griffiths, a literary mystery perfect for fans of Anthony Horowitz and Agatha Christie. The death of a ninety-year-old woman with a heart condition should not be suspicious. Detective Sergeant Harbinder Kaur certainly sees nothing out of the ordinary when Peggy's caretaker, Nataalka, begins to recount Peggy Smith's passing. But Nataalka had a reason to be at the police station: while clearing out Peggy's flat, she noticed an unusual number of crime novels, all dedicated to Peggy. And each psychological thriller included a mysterious postscript: PS: for PS. When a gunman breaks into the flat to steal a book and its author is found dead shortly thereafter--Detective Kaur begins to think that perhaps there is no such thing as an unsuspecting death after all. And then things escalate: from an Aberdeen literary festival to the streets of Edinburgh, writers are being targeted. DS Kaur embarks on a road trip across Europe and reckons with how exactly authors can think up such realistic crimes . . .

Recognizing the determination of a canon as an ongoing process of discussion and debate, which helps us to better understand the concept

of meaningful and important literature, this edited collection turns a critical spotlight on young adult literature (YAL) to explore some of the most read, taught, and discussed books of our time. By considering the unique criteria which might underpin the classification of a YAL canon, this text raises critical questions of what it means to define canonicity and designate certain books as belonging to the YAL canon. Moving beyond ideas of what is taught or featured in textbooks, the volume emphasizes the role of adolescents' choice, the influence of popular culture, and above all the multiplicity of ways in which literature might be interpreted and reflected in the lives of young readers. Chapters examine an array of texts through varied critical lenses, offer detailed literary analyses and divergent interpretations, and consider how themes might be explored in pedagogical contexts. By articulating the ways in which teachers and young readers may have traditionally interpreted YAL, this volume will extend debate on canonicity and counter dominant narratives that posit YAL texts as undeserving of canonical status. This text will be of great interest to graduate and postgraduate students, academics, professionals, and libraries in the field of young adult literature, fiction literacy, children's literacy and

feminist studies.

The Most Dangerous
Game by Richard Connell

The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s.

The Most Dangerous Game by Richard Connell Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. The Most Dangerous Game by Richard Connell Zaroff, another big-game hunter,

knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. The

Most Dangerous Game by Richard Connell After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. The Book Thief Penguin This is the first extended study to specifically focus on character in dystopia. Through the lens of the "last man" figure, Character and Dystopia: The Last Men examines character development in Yevgeny Zamyatin's We, Anthony Burgess's A Clockwork Orange, Kazuo Ishiguro's Never Let Me Go, Fyodor Dostoevsky's Notes from Underground, George Orwell's Nineteen Eighty-

Four, Nathanael West's *A Cool Million*, David Mamet's *Glengarry Glen Ross*, Octavia Butler's *Parable of the Sower*, Lois Lowry's *The Giver*, Michel Houellebecq's *Submission*, Chan Koonchung's *The Fat Years*, and Maggie Shen King's *An Excess Male*, showing how in the 20th and 21st centuries dystopian nostalgia shades into reactionary humanism, a last stand mounted in defense of forms of subjectivity no longer supported by modernity. Unlike most work on dystopia that emphasizes dystopia's politics, this book's approach grows out of questions of poetics: What are the formal structures by which dystopian character is constructed? How do dystopian characters operate differently than other characters, within texts and upon the reader? What is the relation between this character and other forms of literary character, such as are found in romantic and modernist texts? By reading character as crucial to the dystopian project, the book makes a case for dystopia as a sensitive register of modern anxieties about subjectivity and its portrayal in literary works. "Appalachian Daughter grabbed me Friday afternoon, and except for the time for sleeping and necessary duties, did not turn me loose until I finished it Saturday afternoon." Early Reader This coming-of-age novel depicts the trials, triumphs, and tragedies that befall Maggie Martin, the eldest of eight children whose family struggles to make ends meet on a hilly farm in Campbell Hollow, a narrow mountain valley in East Tennessee. On the last day of eighth grade, Maggie begins to dream of finding a way to escape the drudgery and confinement of life in the hollow and establish her independence. Her plan begins to fall in place when she enters high school and discovers she has a natural talent for excelling in shorthand, typing and other business classes. Meanwhile she spares no effort in helping her family continue to survive despite their

poverty, a less than fertile few acres, and a family history of instability. She strives to fit in at high school in spite of the harsh limits placed on her by her hot-tempered, authoritarian mother, Corie Mae. She often turns for support to her easy-going father Ray, who sometimes intervenes to overrule Corie Mae's restrictions. As she goes about her life, doing her school work and helping out at home, she interacts with interesting, unforgettable, and sometimes dangerous characters, including a mentally challenged neighbor, an escaped convict, and a lecherous employer. She is forced to make decisions and take actions that would be difficult for a much older adult. Maggie meets each challenge with determination, imagination, and courage whether it's cutting a pitchfork from a mare's tail or helping to deliver her baby sister. The typical spoken language, folkways, and traditional beliefs and religious practices are skillfully woven into this portrait of Appalachian family life. The author's sympathetic insights into mountain culture combined with memorably etched characters and events create a realistic reflection of

Tennessee mountain life during the decade following WWII. Maggie's life takes an unexpected turn when her cousin JD reveals a dark secret that could shatter the family. Maggie struggles to maintain her dreams of a better life amidst the many trials that will test the grit of this Appalachian Daughter. "I absolutely loved the story!
