A young woman leaves Appalachia for life as a classical musician—or so she thinks. When aspiring violinist Jessica Chiccehitto Hindman lands a job with a professional ensemble in New York City, she imagines she has achieved her lifelong dream. But the ensemble proves to be a sham. When the group "performs," the microphones are never on. Instead, the music blares from a CD. The mastermind behind this scheme is a peculiar and mysterious figure known as The Composer, who is gaslighting his audiences with music that sounds suspiciously like the Titanic movie soundtrack. On tour with his chaotic ensemble, Hindman spirals into crises of identity and disillusionment as she "plays" for audiences genuinely moved by the performance, unable to differentiate real from fake. Sounds Like Titanic is a surreal, often hilarious coming-of-age story. Hindman writes with precise, candid prose and sharp insight into ambition and gender, especially when it comes to the difficulties young women face in a world that views them as silly, shallow, and stupid. As the story swells to a crescendo, it gives voice to the anxieties and illusions of a generation of women, and reveals the failed promises of a nation that takes comfort in false realities.

This book presents a new history of the most important conflict in European affairs during the 1930s, the Spanish Civil War. It describes the complex origins of the conflict, the collapse of the Spanish Republic and the outbreak of the only mass worker revolution in the history of Western Europe. Stanley Payne explains the character of the Spanish revolution and the complex web of republican politics, while also examining the development of Franco's counter-revolutionary dictatorship. Payne gives attention to the multiple meanings and interpretations of war and examines why the conflict provoked such strong reactions at the time, and long after. The book also explains the military history of the war and its place in the history of military development, the non-intervention policy of the democracies and the role of German, Italian and Soviet intervention, concluding with an analysis of the place of the war in European affairs, in the context of twentieth-century revolutionary civil wars.
