The rules of treaty interpretation codified in
the 'Vienna Convention on the Law of Treaties'
now apply to virtually all treaties, in an
international context as well as within national
legal systems, where treaties have an impact
on a large and growing range of matters. The
rules of treaty interpretation differ somewhat
from typical rules for interpreting legal
instruments and legislation within national
legal systems. Lawyers, administrators,
diplomats, and officials at international
organisations are increasingly likely to
encounter issues of treaty interpretation which
require not only knowledge of the relevant
rules of interpretation, but also how these rules
have been, and are to be, applied in practice.
Since the codified rules of treaty interpretation
came into decree, there is a considerable body
of case-law on their application. This case-law,
combined with the history and analysis of the
rules of treaty interpretation, provides a basis
for understanding this most important task in
the application of treaties internationally and

within national systems of law. Any lawyer who
ever has to consider international matters, and
increasingly any lawyer whose work involves
domestic legislation with any international
connection, is at risk nowadays of encountering
a treaty provision which requires interpretation,
whether the treaty provision is explicitly in
issue or is the source of the relevant domestic
legislation. This fully updated new edition
features case law from a broader range of
jurisdictions, and an account of the work of the
International Law Commission in its relation to
interpretative declarations. This book provides
a guide to interpreting treaties properly in
accordance with the modern rules.
