A History of Law in Europe Routledge
Debating the Middle AgesIssues and ReadingsWiley-Blackwell

Vol 2: Social Classes and Political Organisation Springer Nature
Plucknett, Theodore F.T. A Concise History of the Common Law. Fifth Edition. Boston: Little, Brown and Company, 1956. Reprinted 2001 by The Lawbook Exchange, Ltd. LCCN 00-067821. ISBN 1-58477-137-2. Cloth. \$125. * "Professor Plucknett has such a solid reputation on both sides of the Atlantic that one expects from his pen only what is scholarly and accurate...Nor is the expectation likely to be disappointed in this book. Plucknett's book is not...a mere epitome of what is to be found elsewhere. He has explored on his own account many regions of legal history and, even where the ground has been already quartered, he has fresh methods of mapping it. The title which he has chosen is, in view of the contents of the volume, rather a narrow one. It might equally well have been A Concise History of English Law...In conjunction with Readings on the History and System of the Common Law by Dean Pound...this book will give an excellent grounding to the student of English legal history." Percy H. Winfield. Harv. L. Rev. 43:339-340.

With review questions added.

Feudal Society BRILL

An exploration of current scholarly thinking about the wide and surprisingly complex range of historical problems associated with the study of Ancien R é gime Europe

The Missing Link Duke University Press

The book reinterprets Marx's historical materialism as a world accounting history, answers his critics, and supports his theory with accounting evidence from history. It explains Marx's prediction of the inevitability of socialism, and outlines the necessary tasks of critical accounting for Marxists to get Day One.

World History: Patterns of Interaction Oxford University Press

"The Confucian-Legalist State proposes a new theory of social change and, in doing so, analyzes the patterns of Chinese history, such as the rise and persistence of a unified empire, the continuous domination of Confucianism, and China's impossibility to develop industrial capitalism without being compelled by Western imperialism"--

Debating the Middle Ages IndyPublish.com

A “marvelous history”* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize–winning author of The Guns of August *Lawrence Wright, author of The End of October, in The Wall Street Journal The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. In this revelatory work, Barbara W. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for A Distant Mirror “Beautifully written, careful and thorough in its scholarship . . . What Ms. Tuchman does superbly is to tell how it was. . . . No one has ever done this better.”—The New York Review of Books “A beautiful, extraordinary book . . . Tuchman at the top of her powers . . . She has done nothing finer.”—The Wall Street Journal “Wise, witty, and wonderful . . . a great book, in a great historical tradition.”—Commentary NOTE: This edition does not include color images.

McDougal Littel

Carlos Astarita's From Feudalism to Capitalism: Social and Political Change in Castile and Western Europe, 1250-1520 presents for an English-speaking readership a major contribution to the debate on the origins of capitalism.

From Feudalism to Capitalism Gareth Stevens

Annotation. Feudal Society discusses the economic and social conditions in which feudalism developed providing a deep understanding of the processes at work in medieval Europe.

Early European History Historical Materialism Book

Passages from Antiquity to Feudalism is a sustained exercise in historical sociology that shows how the slave-based societies of Ancient Greece and Rome eventually became the feudal societies of the Middle Ages. In the course of this study, Anderson vindicates and refines the explanatory power of historical materialism, while casting a fascinating light on the Ancient world, the Germanic invasions, nomadic society, and the different routes taken to feudalism in Northern, Mediterranean, Eastern and Western Europe. Through this work and its companion volume, Lineages of the Absolutist State, Anderson presents a Marxist history of Western political development that takes readers from the first stirrings of political consciousness in the classical world to the rise of absolutist monarchies in Europe and the birth of the modern epoch.

Law in Medieval Russia Encounter Books

Dear students, I want to share a dream with you. I dreamed that a young person of 14 whom I was going to be teaching would become president of the United States during the first half of the twenty-first century. As a teacher, I was struck by this immense responsibility. What should I teach my student about the world as preperation for this awesome task? How could my world history class help this person to mature into an intelligent and humane president and leader of the free world?

Feudal Society, V. 2 Psychology Press

This book is the first of its kind to engage explicitly with the practice of conceptual history as it relates to the study of the Middle Ages, exploring the pay-offs and pitfalls of using concepts in medieval history. Concepts are indispensable to historians as a means of understanding past societies, but those concepts conjured in an effort to bring order to the infinite complexity of the past have a bad habit of taking on a life of their own and inordinately influencing historical interpretation. The most famous example is feudalism, whose fate as a concept is reviewed here by E.A.R. Brown nearly fifty years after her seminal article on the topic. The volumes contributors offer a series of case studies of other concepts 'colony', 'crisis', 'frontier', 'identity', 'magic', 'networks' and 'politics' that have been influential, particularly among historians of Britain and Ireland in the later Middle Ages. The book explores the creative friction between historical ideas and analytical categories, and the potential for fresh and meaningful understandings to emerge from their dialogue.

From the Early Middle Ages to the Twentieth Century Verso Books

"The first twelve chapters of the present work are based upon the author's Ancient history, published four years ago." "Suggestions for further study": pages xxiv-xxxv.

Feudalism and Non-European Societies Wiley-Blackwell

Stories of pageantry associated with kings, queens, and the upper class have long captivated readers of all ages. The reality behind how these entities have operated within set governmental systems has not always been as glamorous as these tales, but it retains an allure of its own nonetheless. This book provides a firm grounding in the historic political, social, and economic implications of rule by monarchy, including the prevalence of the feudal system in medieval Europe. Modern monarchies and the role of the aristocracy in every age are also detailed.

The Oxford Handbook of the Ancien Régime Cambridge University Press

Describes social, political, and economic conditions that contributed to the development of and characterized European feudal society. Bibliogs

Feudal Society, Volume 2 Éditions de la Maison des sciences de l'homme, Paris

The Huns have often been treated as primitive barbarians with no advanced political organisation. Their place of origin was the so-called 'backward steppe'. It has been argued that whatever political organisation they achieved they owed to the 'civilizing influence' of the Germanic peoples they encountered as they moved west. This book argues that the steppes of Inner Asia were far from 'backward' and that the image of the primitive Huns is vastly misleading. They already possessed a highly sophisticated political culture while still in Inner Asia and, far from being passive recipients of advanced culture from the West, they passed on important elements of Central Eurasian culture to early medieval Europe, which they helped create. Their expansion also marked the beginning of a millennium of virtual monopoly of world power by empires originating in the steppes of Inner Asia. The rise of the Hunnic Empire was truly a geopolitical revolution.

Origins of English Feudalism The Rosen Publishing Group, Inc

Fiefs and Vassals has changed our view of the medieval world. It offers a fundamental challenge to orthodox conceptions of feudalism. Susan Reynolds argues that the concepts of the fief and of vassalage, as understood by historians of medieval Europe, were constructed by post-medieval scholars from the works of medieval academic lawyers and tha they provide a bad guide to the realities of medieval society. This is a radical new examination of relations between rulers, nobles, and freemen, the distillation of wide-ranging research by a leading medieval historian. It has revolutionized the way we think of the Middle Ages.

Feudal Society Oxford University Press on Demand

The first English translation of a comprehensive legal history of Europe from the early middle ages to the twentieth century, encompassing both the common aspects and the original developments of different countries. As well as legal scholars and professionals, it will appeal to those interested in the general history of European civilisation.
