The first edition of Security Analysis, published in 1934, forever changed the theory and practice of successful investing. Yet the remainder of that tumultuous decade brought unprecedented upheaval to the financial world, compelling Benjamin Graham and David Dodd to produce a comprehensively revised second edition.

Benjamin Graham, The Intelligent Investor

"Benjamin Graham is the father of investment analysts everywhere, originally sparking the debate for a credential to professionalize the industry which led to the CFA Charter. He transformed the practice of financial analysis from trade to science, starting with his groundbreaking book, Security Analysis, first published in 1934.

Benjamin Graham's revolutionary theories have influenced and inspired investors for nearly 70 years. First published in 1934, his Security Analysis is still considered to be the value investing bible for investors of every ilk. Yet, it is the second edition of that book, published in 1940 and long since out of print, that many experts--including Graham protégé Warren Buffet--consider to be the definitive edition.
