Never before has so much been known about so many. CCTV cameras, TSA scanners, NSA databases, big data marketers, predator drones, "stop and frisk" tactics, Facebook algorithms, hidden spyware, and even old-fashioned nosy neighbors—surveillance has become so ubiquitous that we take its presence for granted. While many types of surveillance are pitched as ways to make us safer, almost no one has examined the unintended consequences of living under constant scrutiny and how it changes the way we think and feel about the world. In *Under Surveillance*, Randolph Lewis offers a highly original look at the emotional, ethical, and aesthetic challenges of living with surveillance in America since 9/11. Taking a broad and humanistic approach, Lewis explores the growth of surveillance in surprising places, such as childhood and nature. He traces the rise of businesses designed to provide surveillance and security, including those that cater to the Bible Belt's houses of worship. And he peers into the dark side of playful surveillance, such as eBay's online guide to "Fun with Surveillance Gadgets." A worried but ultimately genial guide to this landscape, Lewis helps us see the hidden costs of living in a "control society" in which surveillance is deemed essential to governance and business alike. Written accessibly for a general audience, *Under Surveillance* prompts us to think deeply about what Lewis calls "the soft tissue damage" inflicted by the culture of surveillance.

Population growth, rising property prices and the dream of a new lifestyle have made body corporate living more and more popular in Australia. Living in an apartment, unit or townhouse can be a rewarding experience, but body corporate life can also be confusing. In this book, expert author Stephen Raff clarifies the rules and answers vital questions such as: What should I look out for when buying a strata property? What are the responsibilities of the body corporate, owners and tenants? How do committee meetings work? What fees will I have to pay? Who takes care of maintenance? What happens if I get into a dispute? Packed with revealing case studies and state-specific information, *The Body Corporate Handbook* is a comprehensive guide to every aspect of strata life for owner-occupiers, tenants and investors.

If you think you need a boarding pass to fly, you're really missing out! Today, drones are everywhere. From

film studios to farms, they're in the hands of photographers, commercial surveyors, and racers alike. This fully illustrated book explains how drones developed, where they're going, and which one you should choose. It even includes complete instructions to build both a simple drone and a super-fast FPV racer yourself. Whether you're flying indoors or out, buying or building, this book covers everything: Understand the Jargon: Flying has a lot of unfamiliar terminology, but this book will make it easy to master. Business or Pleasure: Every type of multicopter you might want is introduced, including explanations of which is best suited for what role. Get the Best Pictures: This edition includes an extended guide to the tech and composition tricks you can use to make your pictures stand out of the pack. Get the Best Video: A new shot-guide shows you how to get the most engaging aerial video, whatever your drone. Be an FPV Racer: There are complete step-by-step instructions for building your own FPV racer, or a surprisingly cheap wooden drone – both great projects. This is an Extended Second Edition. Following from the worldwide success of the first edition, which has been translated into numerous languages, this edition is not just fully updated to keep pace with the laws and the technology (including gesture controls), it is also new enough to thoroughly cover the fast-growing new sport of FPV drone racing, while still including a comprehensive guide to learning to fly any drone.
