In the 21st century the companies that make stories seem increasingly uninterested in providing a satisfying product to what they see as an audience of captive fans. To free you from captive fandom, the Guide to Good Story will show you how the value of a story comes from " Three Dimensions. " The first dimension is appeal, which describes the value stories provide by stimulating our emotions and providing us with the kinds of experiences that we want to have. The second is quality, which describes how well or poorly a story provides the elements our brain needs to generate and maintain the " suspension of reality. " The third dimension, context, describes how factors outside of a story shape it and create value within the story. You will then learn how to use the three dimensions together to become an aficionado, someone who uses the Three Dimensions to find good stories for themselves.

The CCTV Handbook is an end user's guide to learning the basics of CCTV security technology and what to look for when buying and installing a system. Filled with insights from installers and vendors, the CCTV Handbook is designed to help new and experienced users alike learn about the features available and how they work. Many end users find manuals from manufacturers to be too technical or to be filled with sales material. The CCTV Handbook examines all the popular technologies of today and examines the pros and cons of each. In addition to learning how to buy the right equipment, the CCTV Handbook teaches users about installing, configuring, & troubleshooting their CCTV security video cameras. This book is intended as an end user's guide to understanding modern CCTV security systems. It is our goal to help users plan, install, and maintain surveillance systems in residential, business, or commercial applications.

Society demands a world that is truly safe and secure for all children to be born and raised into! All pedophiles are lobotomized the first time they offend! All runaway parents are found through national registries and forced to support their abandoned children! All females are sterilized at the age of eight years old! The Catholic Church endorses the national policy of sterilization! All females are tagged on their skin with their medical records as proof of sterilization. Any female adult found in noncompliance is hunted down and physically forced to comply! Any and all supporters of non-compliance are harshly dealt with. Reversal of sterilization is only possible after a lengthy peer review to determine applicants worth eligibility to physically have, care and provide for a child. Constant monitoring is part of their acceptance for the procedure. Every new request for pregnancy requires a new review for eligibility, having passed once does not automatically ensure future allowed pregnancies. All this and more ensures a better society where the needs and rights of a child are placed before those of any adult.
