1. Make a diagram of your surveillance needs. It is both expensive and inefficient to monitor every square inch of your house, so you need to prioritize what areas you want to watch the most. Draw up a rough diagram of your house or print out the blueprints and note where you might want to place cameras.

Most installers think that security camera installation and configuration is to hard to learn, but that is not true. With the correct method it's very easy to learn the necessary fundamentals to become a good professional. That is exactly what will find in the Ultimate Security Camera Guide.
