I get what 's mine. As the gun lay heavily in his hand, the weight of it was nothing compared to the pressure his father had put on him and the club year after year, dragging them all down in the process. Cade had two choices: the club or his father. The club won. Cade Baker sacrificed everything for the Vipers Creed Motorcycle Club, bringing the club back to what it was supposed to be—a family—even when it meant taking out his own father. It took a particular kind of man to kill his blood, but Cade had always believed in doing what was right for the club. To him, it was a small sacrifice to make things normal for him and his brothers. Then, when Trixie strode into his club, full of demanding attitude, his normal was shot straight to hell. He vowed to have Trixie. No matter the cost. Nobody steals from me Trix Lamasters was nobody 's fool. Raised by a con man, she lived by her own set of rules. Mainly, take care of herself first because no one else was going to do it. When an employee stole from her, she could have let it go. She could have let the thief fade into the background and chalk up the missing cash as a loss. She was Trix, after all—she always landed on her feet. But that wasn 't her style. She was too stubborn, too damn proud. No one stole from her and lived to tell about it. With pride,

though, came consequences, and Cade Baker was hers. Trix gave something to Cade when she was a girl, something sacred. And she could never get it back. She had loved and trusted him, and he had left her. Now he was making her crazy ... because he wanted her. And hell, she wanted him, too. But how is she supposed to trust the man who broke every single one of her rules, not to mention, her heart?

Inflame Me Ryan Michele

As in the cascading of water, violence and nonviolence can cascade down from commanding heights of power (as in waterfalls), up from powerless peripheries, and can undulate to spread horizontally (flowing from one space to another). As with containing water, conflict cannot be contained without asking crucial questions about which variables might cause it to cascade from the top-down, bottom up and from the middle-out. The book shows how violence cascades from state to state. Empirical research has shown that nations with a neighbor at war are more likely to have a civil war themselves (Sambanis 2001). More importantly in the analysis of this book, war cascades from hot spot to hot spot within and between states (Autesserre 2010, 2014). The key to understanding cascades of hot spots is in the interaction between local and macro cleavages and alliances (Kalyvas 2006). The analysis exposes the folly of asking single-level policy questions like do the benefits and costs of a regime change in Iraq justify an invasion? We must also ask what other violence might cascade from an invasion of Iraq? The cascades concept is widespread in the physical and biological sciences with cascades in geology, particle physics and the globalization of contagion. The past two decades has seen prominent and powerful applications of the cascades idea to

the social sciences (Sunstein 1997; Gladwell 2000; Sikkink 2011). In his discussion of ethnic violence, James Rosenau (1990) stressed that the image of turbulence developed by mathematicians and physicists could provide an important basis for understanding the idea of bifurcation and related ideas of complexity, chaos, and turbulence in complex systems. He classified the bifurcated systems in contemporary world politics as the multicentric system and the statecentric system. Each of these affects the others in multiple ways, at multiple levels, and in ways that make events enormously hard to predict (Rosenau 1990, 2006). He replaced the idea of events with cascades to describe the event structures that 'gather momentum, stall, reverse course, and resume anew as their repercussions spread among whole systems and subsystems' (1990: 299). Through a detailed analysis of case studies in South Asia, that built on John Braithwaite's twenty-five year project Peacebuilding Compared, and coding of conflicts in different parts of the globe, we expand Rosenau's concept of global turbulence and images of cascades. In the cascades of violence in South Asia, we demonstrate how micro-events such as localized riots, land-grabbing, pervasive militarization and attempts to assassinate political leaders are linked to large scale macro-events of global politics. We argue in order to prevent future conflicts there is a need to understand the relationships between history, structures and agency; interest, values and politics; global and local factors and alliances.

Raber Wolf Pack Box Set Independently Published From Wall Street Journal and USA Today

Bestselling author Ryan Michele comes a brand new spicy contemporary romance series full of propositions and proposals. Sin city ... roll the dice, take chances, for only in Las Vegas are the risks absolutely worth the rewards! My brother is getting married, but before he gets hitched, he and his soon to be Mrs. decide to have a co-bachelor/bachelorette celebration in Vegas. This isn't your typical celebration. No, they dropped the shocker: a couple's week long retreat full of challenges to test and enhance your love. The only problem for me? I don't have a significant other. A single conversation with my lifetime best friend leaves me with one option ... trust her. Carrie knows me better than anyone, why not? What could it hurt? She sends me a surprise I never saw coming. A week with him as my pretend lover. Lines are sure to be crossed and I can only hope my heart won't end up broken. Throwing caution to the wind, we both give everything to this simple proposition.
