empirically studied, integrative treatment approach developed specifically for co-occurring PTSD and substance abuse. For persons with this prevalent and difficult-to-treat dual diagnosis, the most urgent clinical need is to establish safety--to work toward discontinuing substance use, letting go of dangerous relationships, and gaining control over such extreme ...

Seeking Safety: A Treatment Manual for PTSD and Substance

...

Seeking safety is a cognitive, behavioral and interpersonal model for addressing PTSD and substance use together. I'm using this model at my internship, and finding it very useful. We have adapted it somewhat and find it amenable to those shifts while also providing

a clear map.
