Karen Horney was a pioneer in psychoanalysis, challenging the widely accepted Freudian theories and creating her own which emphasized cultural influence and potential for growth through self-reflection and self-understanding.

Review of Self-Analysis (Horney, 1945) - Robert Waxman

Horney was born Karen Danielsen on 16 September 1885 in Blankenese, Germany, near Hamburg. Her father, Berndt Wackels Danielsen (1836–1910), was Norwegian but had German citizenship. He was a ship's captain in the merchant marine, and a Protestant traditionalist (his children nicknamed him "the Bible-thrower", as he did indeed throw Bibles).

Self-Analysis : Karen Horney : 9780393311655

Horney concludes in favour of self-analysis, even where formal therapist assisted analysis is being carried on in tandem. I think that a lot of the content about the exaggeration of the possible harm or popular criticism of both analysis and self-analysis and the reflective turn were insightful and interesting.
