Reference and sense: One important point made by the linguist Ferdinand de Saussure(1974), whose ideas have been so influential in the development of modern linguistics, is that the meaning of linguistic expressions derives from two sources: the language they are part of and the world they describe. The relationship by which language hooks onto the world is usually called reference.

Saeed does a good job providing a (cognitive) theoretical framework for descriptive semantics. I am not so interested in theory, but his writing style was straightforward enough. Kroeger ' s recent semantics book follows this one in content in a lot of ways, but provides a lot less theory and a lot more

diagnostics for language analysis.
