The purpose of the Executive Summary is to give the reader an overview of what the design need is and what design is being proposed to fill that need. Because of its content and location, this section is the most widely read section of the document. For that reason, the section should be well written and carefully proofread.

Senior Document  
Designer (open  
vacancy) - Riyadh -  
Bayt.com

A high-level design document (HLDD) describes the architecture used in the development of a

particular software product. It usually includes a diagram that depicts the envisioned structure of the software system. Since this is a high-level document, non-technical language is often used.
